2Q18 Gross Operating Profit – Net profit: walk

Following the introduction of IFRS 9, new specific models which draw on the PD, LGD and EAD criteria, as well as the effective interest rate, to calculate the expected loss have been implemented. In this regard, forward-looking information has also been included with the elaboration of specific scenarios. These models are used for calculating value adjustments of all the institutional counterparties, including financial institutions, banks and sovereign counterparties.

In 2Q18 Loan Loss Provisions and Profit on Investments benefitted from model recalibration for loans to banks and in particular from the improvement of UniCredit risk profile (PD). This generated:

- +2.4mln Loan Loss Provisions mainly related to current account with UC
- +5.3mln Profit on Investments, o/w +5.5mln related to UC bond portfolio

Cooperative Compliance Scheme:

FinecoBank admitted in the Cooperative Compliance Scheme with the Revenue Agency

In July 2017, **FinecoBank** has been admitted to the **Cooperative Compliance Scheme⁽¹⁾**, which allows the Bank to take part to a register of taxpayers (published on the Revenue Agency's official website) **operating in full transparency with the Italian tax Authorities**. This is a fundamental milestone for our Bank

Until now, **only 5 companies** have been admitted in Italy: Fineco, UniCredit, Leonardo, Ferrero, Prada and BPER (Banca Popolare dell'Emilia Romagna)

Key requirements to be admitted:

- ✓ **subjective and objective requirements** (resident legal entities with specific sizing thresholds)
- ✓ **effective system in place for identifying, measuring, managing and controlling tax risk** in line with the "essential" requirements of the *Tax Control Framework* envisaged by law, Revenue Agency ordinances and by the OECD documents published on the subject

Several advantages:

- ✓ closer relationship of **trust and cooperation** with the Revenue Agency
- ✓ **Increase of the level of certainty on significant tax issues** under conditions of full transparency
- ✓ **agreed and preventive risk assessment** of situations likely to generate tax risks
- ✓ **fast track ruling**
