Revenues

Despite the market correction YTD, our diversified business model allows for an unchanged outlook of our non-financial income, only with a different mix:

- > o/w INVESTING REVENUES: every 1 billion change of Asset Under Management on May 1st, generates around 4.5 million of revenues from May 1st until year end
- o/w BANKING FEES: expected with a slight decrease in FY25 due to the new regulation on instant payments

Costs and provisions

- ➤ OPERATING COSTS: expected growth of around 6% y/y in FY25, not including few millions of additional costs for growth initiatives in a range 5/10 mln (mainly: marketing, FAM, AI)
- COST / INCOME: in FY25 comfortably below 30% thanks to the scalability of our platform and strong operating gearing
- > COST OF RISK: in a range 5-10 bps in FY25 thanks to the quality of our portfolio

Capital

> PAYOUT & CAPITAL RATIOS: for FY25 we expect a payout ratio in a range 70/80%. On Leverage Ratio our goal is to remain above 4.5%

Commercial performance

- > NET SALES: robust, high quality with increasing AUM and deposits net sales
- > CLIENTS ACQUISITION: continued strong growth expected

FINECO GROWTH STORY IS JUST AT THE BEGINNING

- Healthy acceleration of new clients, driven by our top-quality offer and not by aggressive marketing campaign based on short term rates
- Each new client improves FBK metrics with deposits or business opportunities for brokerage and investing

...and recording a clear acceleration in net sales dynamics

AUM: a sizable mix shift opportunity

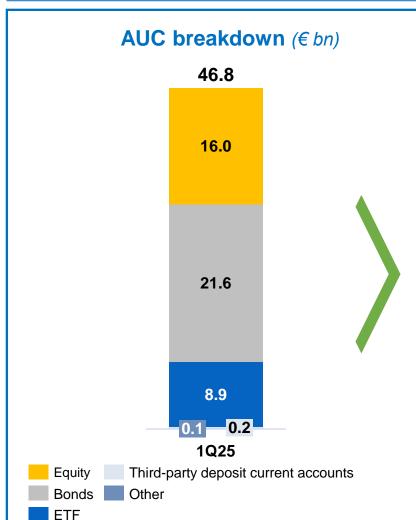

AUC: the real cornerstone of our fee-driven business growth

An undervalued component of our business, key for AUM growth and higher brokerage floor

Asset Under Custody: a clear sign of healthy fees expansion

AUC PLAYING A KEY ROLE IN OUR FEE DRIVEN GROWTH:

- INVESTING: AUC is the main source of our AUM net sales. As ~90% of our growth is organic driven (as opposed to highly costly recruiting-based business model), our new clients' asset allocation is on avg more skewed into AUC. Our Network of PFA is 100% focused in improving clients' mix into AUM.
- BROKERAGE: AUC and active investors growth as the driver of the higher floor of our brokerage revenues

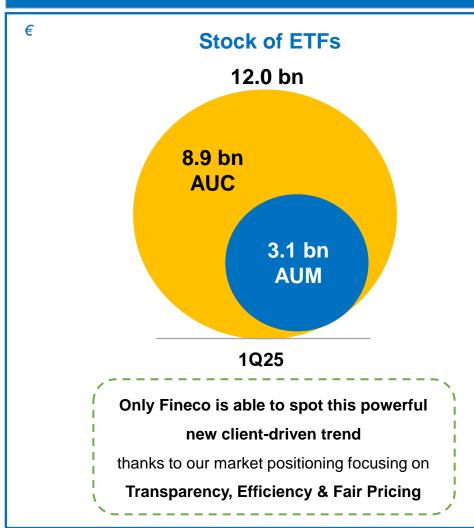

3 ETFs: exploring new revenues opportunity by this fast growing asset class (see next slide)

ETF business: Earnings To Free-up

Fineco the only real player able to catch the client-driven move towards efficient investment solutions

A fast-accelerating shift underneath the surface of the Italian Wealth Management industry

Initiatives underway to extract recurring revenues on ETFs

- Positive volume effect for Investing business thanks to enlargement of cluster of clients: given the rising interest for ETFs, we can move into advanced advisory wrappers several hundreds of clients not interested in traditional mutual funds, thus with no cannibalization risk
- Given our leadership on ETF retail flows, Fineco is the main gateway for issuers to the Italian market. At present, the Bank is managing all the costs to handle clients while not having recurring revenues on ETFs: talks are underway with our partners to strike the right balance
- Fineco Asset Management: launched its first set of ETFs in 2022, now counting on 18 instruments. Coming soon: new Actively managed ETFs & Active Portfolios made of ETFs
