2022 Guidance and outlook going forward

FY22 Revenues y/y growth strongly improved vs previous guidance, with a different mix thanks to the diversified business model in the current volatile environment

■ BANKING REVENUES:

➤ **Net financial income (NFI: net interest income + Profit from Treasury management) expectations⁽¹⁾:**

FY22: around 380 mln with the current forward rate curve.

FY23: NFI growth by at least +70% vs FY22 upward revised expectations⁽²⁾. **Going forward** we expect it to keep on benefiting from the new interest rates scenario thanks to the sensitivity and to the volume increase

➤ **Banking fees:**

FY22 above 50mln. **FY23:** expected to keep on growing thanks to the increase of the client base

■ INVESTING REVENUES expectations:

FY22:

- Revenues increase around 10% y/y, including market effect up to October, with higher ManFees margins y/y
- AUM net sales at around 3.0 bn (FAM retail net sales around 2.5 bn)
- PFAs: net increase in a range of 110-130 PFAs expected

Going forward: strong acceleration in revenues and margins expected thanks to:

- 1) AUM net sales around 5 bn per year
- 2) The increase in FAM penetration in Fineco AUM, with retail net sales ~4.5bn per year

ManFee margins after-tax confirmed up to ~55bps in 2024 (pre-tax ~73bps)

■ **BROKERAGE REVENUES:** countercyclical business, it is expected to remain strong with a floor - in relative terms with respect to the market context - **definitely higher than in the pre-Covid period**

■ OPERATING COSTS expectations:

For FY22: growth of around 5% y/y, not including ~7 million of additional costs related to FAM strategic discontinuity and additional marketing costs. In the coming months we will invest few additional millions in marketing to take advantage of the strengthening of the structural trends

Going forward we expect FAM costs to stabilize

■ **COST / INCOME:** we confirm our guidance on a continuously declining cost/income in the long-run thanks to the scalability of our platform and to the strong operating gearing we have

■ **SYSTEMIC CHARGES:** in a range -45/47 mln of DGS+SRF ⁽³⁾

■ **TAX RATE:** for 2022 in a range 0/-0.5 p.p. y/y due to new interest rates scenario

■ **CAPITAL RATIOS:** CET1 floor at 17%, Leverage Ratio very well under control in a range 3.75/4.0% in FY22 (for details see slide 50 in Annex)

■ **DPS:** going forward we expect a constantly increasing dividend per share

■ **COST OF RISK:** in a range 3/8 bps in 2022 thanks to the quality of our portfolio

■ **NET SALES:** robust, high quality and with a focus on keeping the mix mainly skewed towards AUM thanks to the new initiatives we are undertaking

**OUTLOOK
IMPROVED**

The current expectations for FY22 and FY23 have strongly improved vs the previous ones as the expected uplift in the Net Financial Income is consistently higher compared to the slight decrease in the growth of Investing revenues

(1) Assumptions based on forward rate curve as of October 31st, 2022

(2) Already cautiously considering the early repayment of TLTRO on November 22nd, 2022

(3) In provisions for risk and charges based on the increase of protected deposits within the banking system. The final contribution will be communicated by FITD in December this year
