

POWERDESK

MANAGE YOUR PERSONAL TRADING FLOOR

BE PART OF THE NUMBER 1 ONLINE TRADING PLATFORM^{*}.

Quickly react to every trading opportunity with **direct desktop access to 26 global markets** and a comprehensive offering covering the entire globe.

With PowerDesk, the professional trading platform exclusively dedicated to
Fineco customers, you can trade thousands of products: Shares, CFDs, FX,
ETFs, Futures, Bonds, Options and other financial instruments worldwide.

Choose our platform designed in house:

- Trade directly in **GBP, EUR, USD, CH**F and many other currencies.
- No activation cost and no monthly fee
- Advanced charts for both retail and professional traders
- Free real-time market data.

Plus, with Fineco you can trade with flat fees on UK, EU and US Stocks and ETFs, from £2.95 per order and spread of 0.8 points on CFDs Forex and 1 point on CFDs, Indices and Commodities.

All from the comfort of your own home – directly from the website or using the desktop app.

CFDs are complex, high-risk financial products and you may lose more than your initial investment.

See page 23 for further details and conditions. *No. 1 online trading platform (for executed orders) – Source: Main European brokers balance sheets 2016 (Comdirect, ConsorsBank).

1. MARKET BAR

ORDERS MONITOR

On a single screen check the status of the orders entered, executed or deleted, and display the monitors dedicated to this type of transaction or financial instrument with a single click.

The **PROTECT** button allows you to enter Stop, Take and Trailing both on the single as well as on the overall position.

The B button allows you to replicate your order, the X to delete it. With the "Close" function, C a close-out order with a market price is sent, without having to set the corresponding quantity, thereby speeding execution times.

CANCEL AND RE-ENTER

In the case of an order being entered but not yet executed, it is possible to cancel an order and re-enter it at a different price, in a single click. Simply click on the entered price on the PowerBoard or on the monitor. A pop-up will open to enable you to insert a new price level and to confirm that you wish to submit. When using this function, only the price changes, whilst the quantity remains the same as the previous order.

🗰 ALL CANCEL

CANCELLING ORDERS

With the CANCEL button all the orders that are Entered at that time on a specific security are cancelled.

The CANCEL button at the top of the monitor cancels all the entered orders on any financial instrument.

EXECUTION NOTIFICATIONS

The pop-up button allows you to receive a warning window when an order is activated. The bell creates a sound alert for the execution of orders.

OTHER FUNCTIONS

By clicking on it is possible to save the content of the Monitor and the Portfolio to an Excel spreadsheet.

The button allows you to duplicate panels so that, for example, you can have multiple Order Monitors dedicated to different financial instruments.

ALERT & CONDITIONS

The Alert panel allows you to set sound, email or text alerts that signal the breach of a specific price of a specific instrument. It is also possible to enter a short message that will be sent at the same time as the Alert.

The Conditions tab summarises the simple conditional orders and OCO orders set according to their category of products.

	MONITOR	ALERT&CON		P&L

POWERCHART CHARTS.

PowerChart is one of the most sophisticated systems for the study of market performance and financial instruments, thanks to its indicators and chart analysis, interactivity and usability.

Professional - It's the perfect support tool for analysis and investment activities.

Fully Developed - The large spectrum of indicators and chart analysis will satisfy the needs of the most experienced analysts.

Easy to use - A simple and intuiative interface with the possiblity of recalling all functions with a single click, making it a tool suitable even for private investors.

Personalisable - With a single click of your mouse, you are able to retrieve and define the layout, size, colours, indicator parameters and the forecast period.

Push – Real time push updates for prompt analysis and decisions.

The main functions are controlled through the icons arranged around the area of the chart, allowing you to select the uses of the application that will be displayed inside the main panel and the two secondary panels.

In the **main panel**, the past performance of the security is shown.

The **secondary panels** show volumes, technical indicators or zoom.

MULTICHARTS

With MultiCharts, you can open up to 6 charts in a single window, one visual Watchlist which allows you to always have your main securities at the forefront.

Inside the window the timeframe appears on all the charts.

You can sort the internal charts vertically, horizontally or squared by dragging the edges of the window.

4	June			20	18		June J				
Sun	Mon	Tue	Wed	Thu	Fri	Sat	Sun	Mon	1		
27				31	1	2					
3	4	5	6	7	8	.91					
10	11	12	13	14	15	16		11			
17	18	19	20	21	22		17	18			
				28							

TIMEFRAME

The "(x) custom unit" function and Calendar make it possible to view a specific number of candles or a specific time period from one date to another.

In just one click, enter, modify or cancel orders directly on the chart.

Set the horizontal line to the desired price level, right click your mouse and enter your order.

Click on 🛛 to cancel the entered order or drag the tab to the new price to change the order that has not been executed yet. From today, you can also submit or change Stop Loss and Take Profit on all the financial instruments available on PowerDesk.

Maximum chart personalisation freedom. It is possible and personalise it by size and colours.

You can change the background colours, grids, labels and choose the font for the chart which is best suited to how you wish to analyse your data. You can choose between a line chart, bar chart, candlestick, mountain view, Equivolume and candlevolume.

TEMPLATE

By clicking on the "workspace" tab, you can save, recover and modify up to 10 technical anaylsis studies personalised to one single security.

Furthermore, via the "tempiale" function, it is possible to recall up to 10 MultiCharts to simultaneaously view your favourite security charts.

By ticking the auto save button, the settings are saved when the chart is closed.
