EXECUTIVE SUMMARY

FINECO, THE BANK THAT SIMPLIFIES BANKING.

SECTION I – EXECUTIVE SUMMARY

Our Compensation Policy

The implementation of the principles set in our Compensation Policy provides the framework for the design of reward programs across the Bank.

FinecoBank compensation approach, coherent with UniCredit Group one, is compliant with the most recent national and international regulatory requirements and guarantees the link to the performance, the market framework, the alignment with business strategy and the long-term shareholders' interest.

The key pillars of our Compensation Policy (Section II) reflect the most recent regulations in terms of remuneration and incentive policies and practices, in order to build, year-by-year – in the interest of all stakeholders – remuneration systems aligned with long-term strategies and goals. These are linked with company results and adequately adjusted in order to take into account all risks consistent with capital and liquidity levels needed to support all activities and to avoid distorted incentives that could lead to a breach of law or to excessive risk taking.

Elements of our compensation approach and key results of 2015:

1. Introduction

Our set of values is based on integrity as a condition to transform profit into value for our stakeholders.

By upholding the standards of sustainability behaviours and values which drive our mission, our compensation strategy represents a key enabler to enhance and protect our reputation and to create long-term value for all stakeholders.

Also through appropriate compensation mechanism, we aim to create a work environment which is comprehensive of any form of diversity and which foster and unlock individual potential, to attract, retain and motivate highly qualified employees, capable of creating a competitive advantage and to reward those who reflect our standards of consistently ethical behaviour in conducting sustainable business.

Relying on our governance model, our Compensation Policy sets the framework for a common and coherent design, implementation and monitoring of compensation practices across our Company that reinforce sound risk management policies and our long-term business strategy. In so doing, we most effectively meet the specific and evolving needs of our different businesses and populations, and ensure that business and people strategies are always appropriately aligned with our remuneration approach.

To ensure the competitiveness and effectiveness of remuneration as well as transparency and internal equity, the **key pillars** of our Compensation Policy were confirmed:

- **Clear and transparent governance**, through efficient corporate and organizational governance structures, as well as clear and rigorous governance and rules.
- **Compliance with regulatory requirements and principles of good professional conduct**, by protecting and enhancing our company reputation, as well as avoiding or managing conflicts of interest between roles within the Bank or vis-à-vis customers.
- **Continuous monitoring of market trends and practices** and awareness of international practices, aimed at sound formulation of competitive compensation as well as at transparency and internal equity.
- **Sustainable pay for sustainable performance**, by maintaining consistency between remuneration and performance, and between rewards and value creation, as well as enhancing both the actual result achieved and the means by which they are achieved.
- **Motivation and retention of all staff, with particular focus on talents and mission-critical resources**, with the aim to attract, motivate and retain the best resources capable of achieving our company mission in adherence to Bank values.

2. Governance

Our compensation governance model aims to assure clearness and reliability in the governance processes related to remuneration through a right control of Company's remuneration practices by ensuring that decisions are made in an independent, informed and timely manner at appropriate levels, avoiding conflicts of interest and guaranteeing appropriate disclosure in full respect of the general principles defined by regulators.

2.1 Role of the Remuneration and Appointments Committee

The Board of Directors established a Delegation of Powers system to appropriately regulate effective decision-making processes throughout the organization.

In particular, the Remuneration and Appointments Committee is vested with the role of providing advice and opinions submitted to the Board of Directors with regard to FinecoBank Remuneration Strategy, also with the support of Risk and Compliance functions, as well as of an independent external advisor, if required and needed.

The main topics discussed by the Committee are also submitted to the attention of the Board of Statutory Auditors, in advance over their submission to the Board of Directors. The Remuneration and Appointments Committee, instituted in 2014, consists of 3 non-executive members all independent.

As per regulatory requirements, at least one of the Committee's member has an adequate knowledge and experience in finance or remuneration policies.

2.2 Market benchmark

With specific reference to *Identified Staff*, an independent external advisor supports the Remuneration and Appointments Committee on the definition of a list of selected competitors that represent our peer group with regards to whom compensation benchmarking analysis is performed, considering our main national and European competitors in terms of market capitalization, total assets, business scope and dimension, to assure a competitive alignment with the market of reference.

The results of this analysis will be at FinecoBank Remuneration and Appointments Committee's disposal, in order to support the formulation of opinions to the Bodies of the Bank responsible for taking such decisions.

On the basis of constant benchmarking, we aim to adopt a competitive compensation structure for effective retention and motivation of our critical resources, as well as payments consistent with long-term value for stakeholders.

FinecoBank salary and compensation structures defined on the basis of business or market-specific benchmarking must, in any case, be fully aligned with the general principles of the Group Compensation Policy, with particular reference to the pillars of compliance and sustainability.

2.3 Definition of FinecoBank Compensation Policy

The FinecoBank Compensation Policy, as drawn up by the *Human Resources* function, with the involvement of *Risk Management, Finance and Network Controls, Monitoring and*

Service Department functions for all related aspects, is validated by the *Compliance* function for all compliance-related aspects, before being submitted to the Remuneration and Appointments Committee. On annual basis the Compensation Policy, as proposed by the Remuneration and Appointments Committee, is submitted to the Board of Directors for approval and then presented to the Shareholders' Meeting for approval, in line with the regulatory requirements.

The principles of FinecoBank Compensation Policy, coherently with the Group's ones, are applicable to the entire organization and includes:

- all categories of employees, considering that the Group Compensation Policy, with specific reference to *Identified Staff* defined according to the regulatory requirements of the *European Banking Authority (EBA)*, provides for a centralized, and homogeneous compensation and incentive system guidelines defined at Group level;
- members of the Company's Financial Advisors' Network, in line with the specific pay conditions applicable to them.

2.4 Role of *Compliance* function

Compliance function⁴ operates in close co-ordination with the *Human Resources* function, in order to support the design and the definition of compensation policy and processes and to evaluate them for the profiles in scope.

In particular, *Compliance* function, evaluates, for all aspects that fall within its perimeter, the FinecoBank Compensation Policy and – referring to applicable regulations – the incentive systems for Bank staff as drawn up by *Human Resources* function for the employees and by *Network PFA Department / Network Controls, Monitoring and Service Department* for the Financial Advisors, providing input – as far as it is concerned – for the design of compliant incentive systems.

FinecoBank Incentive Systems are defined with the involvement and collaboration of CRO and CFO functions, for the overall qualitative assessment of economic sustainability and of risk and *Compliance* function to ensure consistency with “*the goal of complying with regulations, articles of association and any other code of ethics or other standards of conduct applicable to the bank, so that legal and reputational risks mostly embedded in the relationship with customers are duly contained*” (ref. Bank of Italy).

In accordance with the regulatory framework and our governance, the guidelines for the definition of the incentive systems for *non-Identified Staff* population are arranged, in collaboration with *Compliance* function:

- by *Human Resources* function for the employees
- by *Network PFA Department / Network Controls, Monitoring and Service Department* for the Financial Advisors

2.5 Role of *Risk Management* function

FinecoBank ensure consistency between remuneration and accountable and sustainable risk assumption. This policy is ensured through rigorous governance processes based on informed decisions taken by Corporate Bodies. Compensation plans include the strategic

⁴ A “Compliance Outsourcing agreement” was signed with UniCredit S.p.A.

risk appetite defined by the FinecoBank *Risk Appetite Framework*, which is consistent with Group *Risk Appetite Framework*.

The *Risk Management* function is constantly involved in the definition of the remuneration policy, the incentive system and compensation processes as well as in the identification of objectives and in the performance appraisal. This involvement implies explicit link between the Bank incentive mechanisms, selected metrics of the *Risk Appetite Framework*, the validation of performance and pay, so that the assumption of risk is properly bound to incentives related to risk management.

3. Fundamentals

3.1 Ratio between variable and fixed remuneration

- Compensation levels and ratio between fix and variable component of overall remuneration for *Identified Staff* are managed and monitored based on our business strategy and also aligned with FinecoBank relative performance over time.
- In compliance with applicable regulations, the adoption of a maximum ratio between variable and fixed remuneration of 2:1 has not changed for the employees belonging to the business functions.
- For the rest of the employees, a maximum ratio between the components of remuneration equal to 1:1 is usually adopted, except for the staff of the Company Control Functions⁵, for which it is provided that the variable remuneration could not exceed 33% of the fixed remuneration and that incentive mechanisms are consistent with the assigned tasks as well as independent of results from areas under their control.
- With reference to applicable regulations, regarding the Financial Advisors belonging to *Identified Staff*, the 2:1 ratio will be adopted between the non-recurring and the recurring component of the remuneration.
- The adoption of a ratio of 2:1 between variable and fixed compensation don't have any implication on bank's capacity to continue to respect all prudential rules, in particular capital requirements.

3.2 Sustainability of the variable compensation

- Performance is evaluated in terms of risk-adjusted profitability and provide for risk-weighted systems and mechanisms.
- Incentive systems must not in any way induce risk-taking behaviours in excess of strategic risk appetite; in particular they should be coherent to the *Risk Appetite Framework* ("RAF").

⁵ Meaning *Risk Management*, *Compliance* and *Human Resources* functions. *Human Resources* function is considered Company Control Function, as far as remuneration and incentive policies and practices are concerned, pursuant to Bank of Italy Circular nr. 285 of 17 December 2013.

3.2.1 Definition of performance targets

- Consider the customer as the central focus of our mission, placing customer satisfaction in the forefront of all incentive systems, at all levels, both internally and externally;
- design forward-looking incentive plans which balance internal key value driver achievement with external measures of value creation relative to the market;
- use both absolute and relative performance achievement metrics, where relative performance-based measures are based on comparison of achieved results to those of market peers;
- consider performance on basis of annual achievements and on their impact over time;
- include reflection of the impact of individual's / business units' return on the overall value creation of related business groups and organization as a whole;
- maintain an adequate mix of financial and non-financial (quantitative and qualitative) goals, considering also performance objectives as for example risk management, adherence to Company values or other behaviours;
- it is crucial to avoid measures linked to economic results for Company Control Functions (*Risk Management*⁶, *Compliance* and *Human Resources*⁷);
- the approach for Company Control Functions is also recommended where possible conflicts may arise due to the function's activities. In particular, this is the case of functions (if any) performing control activities pursuant to internal / external regulations such as some structures that perform accounting / tax activities⁸.
- assure independence between front and back office functions in order to guarantee the effectiveness of cross-checks and avoid conflict of interest, with a particular focus on trading activities, as well as ensuring the appropriate independence levels for the functions performing control activities;
- set an appropriate mix between short and long-term variable compensation, coherently with the Company strategy, as relevant on the basis of market and business specifics, and in line with long-term interests of the Bank.

3.2.2 Performance appraisal

- Base performance evaluation upon profitability, financial strength and other drivers of sustainable business with particular reference to risk, cost of capital and efficiency;
- design flexible incentive systems such as to manage pay-out levels in consideration of Group and FincoBank performance results and individual achievements, adopting a meritocratic approach to selective performance-based reward;
- design incentive systems to set minimum performance thresholds below which zero bonus will be paid. With regard to the Company Control Functions and in order to maintain the adequate independence level and provide a maximum threshold for the progressive reduction of the bonus pool, which can be phased out to zero only

⁶ Where CRO roles cover both *Underwriting* and *Risk Management* functions, goals assigned must not represent a source of conflict of interest between Risk Management and Underwriting activities

⁷ *Human Resources* function is considered Company Control Function, as far as remuneration and incentive policies and practices are concerned, pursuant to Bank of Italy Circular nr. 285 of 17 December 2013.

⁸ Where CFO roles cover also Financial Statements preparation, possible economic measures have to be chosen in a conflict-avoidance perspective.

in presence of an exceptionally negative situation⁹ within an approval process including a governance step in the Board of Directors;

- guarantee that evaluations and appraisals linked to compensation are, as far as possible, available for the scrutiny of independent checks and controls;
- assess all incentive systems, programs and plans against in order to avoid the risk that our Company reputation may be jeopardized.

3.2.3 Payment of the variable compensation

- Evaluate the opportunity to phase, as foreseen by regulatory requirements, performance-based incentive pay-out to coincide with the risk timeframe of such performance by subjecting the pay-out of any deferred component of performance-based compensation to the actual sustainable performance demonstrated and maintained over the deferral timeframe, so that the variable remuneration takes into account the time trend of the risks assumed by the Bank (e.g. *malus* mechanisms);
- consider claw-back actions as legally enforceable on any performance-based incentive paid out on the basis of a pretext subsequently proven to be erroneous;
- include clauses for zero bonus in circumstances of non-compliant behaviour or qualified disciplinary action, subjecting pay-out to the absence of any proceeding undertaken by the company for irregular activities or misconduct of the employee with particular reference to risk underwriting, sales processes of banking and financial products and services, internal code of conduct or values breach.

Focus on claw-back

The Company reserves the right to activate claw-back mechanisms, namely the return of any form of variable compensation already paid (both the immediate and deferred element, to the extent of 100% of the amount awarded) within, as a rule, the deferral period applied to the payment structure of the variable award, unless different provisions by local regulations are in force. This applies in the case of verification of behaviours adopted in the reference period, for which the employee:

- contributed with fraudulent behaviour or gross negligence to incurring significant financial losses, or by his conduct had a negative impact on the risk profile or on other regulatory requirements at Group or local level;
- engaged in misconduct and/or fails to take expected actions which contributed to significant reputational harm to the Bank, or which were subject to disciplinary measures by the Authority;
- is the subject of disciplinary measures and initiatives envisaged in respect of fraudulent behaviour or characterized by gross negligence during the reference period;
- infringed the requirements set out by articles 26 TUB and 53 TUB, where applicable, or the obligations regarding the remuneration and incentive system.

The claw-back mechanisms can be activated also after the employee's contract termination and/or the end of the appointment and take into account the relative legal, contribution and fiscal profiles and the time limits prescribed by local regulations and applicable practices.

⁹ E.g. *Common Equity Tier 1 Ratio Transitional* dropping under the minimum regulatory requirement, in a persistent "recession" scenario.

3.3 Termination payments

- According to the regulatory requirements issued by Bank of Italy in “*Disposizioni di vigilanza per le banche*” (Circolare no. 285 of December 17th, 2013, 7th update of November 18th, 2014), a specific policy (“*Termination Payments Policy*”) on payments to be agreed in case of early termination of a contract (so called *severance*) was approved by 2015 Shareholders’ Meeting. For details on criteria, limits and authorization processes, reference is made in the above mentioned Policy.
- Generally speaking, the calculation of any severance pay-outs prescribed or suggested by the specific market of reference takes into consideration the long-term performance in terms of shareholder added-value, as well as any local legal requirements, collective / individual contractual provisions, and any individual circumstances, including the reason for termination.
- Any severance provision exceeding the ones provided by the Law / National Labor agreement which are locally applicable were avoided. In cases where there is a lack of such regulations, any severance beyond the notice period don’t exceed, as a rule, 24 months of total compensation and are scaled according to the length of employment.
- None of the non-Executive Directors have contracts containing clauses envisaging the payment of indemnities, or the right to keep post-retirement benefits, in the event of resignations or dismissal / revocation without just cause or if the employment relationship is terminated following a public purchase offer. In case of early termination of the mandate, the ordinary law provisions would therefore apply.
- As a rule, discretionary pension benefits are not granted and, in any case, even if they may be provided in the context of local practices and/or, exceptionally, within individual agreements, they are paid consistently with the specific and applicable laws and regulations.

3.4 Non-standard compensation

- Non-standard compensation are those compensation elements not usually provided under our Compensation Policy and are considered exceptions (for instance welcome bonus, guaranteed bonus, special award, retention bonus, allowance).
- These awards are limited only to specific situations related to hiring phases, launch of special projects, achievement of extraordinary results, high risk of leaving for critical / strategic people / roles.
- Moreover, these awards must in any case be in accordance with regulations time to time in force (e.g. cap on the ratio between variable and fix remuneration, technical features fixed by regulation where applicable for bonus pay-out) and subject to UniCredit and FinecoBank governance processes, periodically monitored and disclosed as for regulatory requirements and must be subject to *malus* conditions and claw-back actions, as legally enforceable.

3.5 Compliance Drivers

To support the design of remuneration and incentive systems, and with particular reference to Company Control Functions, the following “compliance drivers” were defined):

<ul style="list-style-type: none"> ✓ maintenance of an adequate ratio between economic and non-economic goals, depending on the role (in general, at least one goal should be non-economic) 	<ul style="list-style-type: none"> ✓ qualitative measures must be accompanied by an <i>ex-ante</i> indication of objective parameters to be considered in the evaluation, the descriptions of expected performance and the person in charge for the evaluation
<ul style="list-style-type: none"> ✓ non-economic quantitative measures should be related to an area for which the employee perceives a direct link between her/his performance and the trend of the indicator 	<ul style="list-style-type: none"> ✓ among the non-financial goals (quantitative and qualitative), include, where relevant, goals related to Risk as well as to Compliance (e.g. credit quality, operational risks, application of MIFID principles, products sale quality, respect of the customer, Anti Money Laundering requirements fulfillment)
<ul style="list-style-type: none"> ✓ set and communicate <i>ex-ante</i> clear and pre-defined parameters as drivers of individual performance 	<ul style="list-style-type: none"> ✓ avoidance of incentives with excessively short timeframes (e.g. less than three months)
<ul style="list-style-type: none"> ✓ promotion of a customer-centric approach which places customer needs and satisfaction at the forefront and which will not constitute an incentive to sell unsuitable products to clients 	<ul style="list-style-type: none"> ✓ take into account, even in remuneration systems of the external networks (Financial Advisors), the principles of fairness in relation with customers, management of legal and reputational risks, protection and loyalty of customers, compliance with the provisions of law, regulatory requirements, and applicable self-regulations
<ul style="list-style-type: none"> ✓ create incentives that are appropriate in avoiding potential conflicts of interest with customers, considering fairness in dealing with customers and the endorsement of appropriate business conduct 	<ul style="list-style-type: none"> ✓ economic goals must be avoided for Company Control Functions¹⁰ and individual goals set for employees in these functions shall reflect primarily the performance of their own function and be independent of results of monitored areas, in order to avoid conflict of interest
<ul style="list-style-type: none"> ✓ define – for personnel providing investment services and activities – incentives that are not only based on financial parameters, but also take into 	<ul style="list-style-type: none"> ✓ The approach for control functions is also recommended where possible conflicts may arise due to function’s activities. This is the case in particular of functions of the Company

proper functions

Within network roles incentive systems, particular attention is put on “*Commercial Campaigns*”.

Such Campaigns may be organized after the evaluation and authorization of the competent Company’s Bodies. They represent business actions aimed at providing guidance to the sales network towards the achievement of the period’s commercial targets (also intermediate, for instance on a half-year basis) and with a direct impact on the budget and related incentive systems.

Among the distinctive features of commercial campaigns, there is the expectation of the award - in cash or non-monetary reward. Commercial Campaigns can also have the function to accelerate the achievement of certain objectives of the incentive system. The grant of awards related to a Campaign will be subordinated to behaviours compliant with the external and internal regulations.

Under no circumstances may the system of remuneration and evaluation of the sales network employees constitute an incentive to sell products unsuitable to the financial needs of the clients.

In particular the following “*compliance drivers*” have been defined:

- ✓ setting-up of the incentive mechanisms using criteria which are consistent with the best interest of the client and which avoid in any case conditions of potential conflicts of interest with customers, and coherently with relevant regulatory provisions (e.g. MiFID)
- ✓ ensuring consistency between a Campaign’s objectives with the objectives set when defining the budget and when assigning targets to the sales network
- ✓ avoidance of “commercial campaigns” on a single financial or Banking product / financial instrument
- ✓ inclusion of clauses for zero bonus payment in case of relevant non-compliant behaviour or qualified disciplinary actions
- ✓ avoidance of campaigns which – not being grounded on an objective and customer interests related basis – may directly or indirectly lead to breaching the rules of conduct regarding clients
- ✓ avoidance of campaigns lacking a clear indication of the targets and of the maximum level of incentive to be granted for achieving those targets
- ✓ avoidance – in general – of campaigns that link incentives not only to the targets assigned to specific roles / structures but also to higher hierarchical levels or to the budget of the higher territorial structure

4. Compensation Structure

4.1 Employees

Within the framework provided by the “FinecoBank Compensation Policy”, FinecoBank is committed to ensure fair treatment in terms of compensation and benefits regardless of age, race, culture, gender, disability, sexual orientation, religion, political belief and marital status.

Our total compensation approach provides for a balanced package of fix and variable, monetary and non-monetary elements, each designed to impact in a specific manner the motivation and retention of employees.

In line with the applicable regulations, particular attention is paid to avoid incentive elements in variable compensation which may induce behaviours not aligned with the company’s sustainable business results and risk appetite.

As policy target, total compensation is set around upper quartile, with individual positioning being defined on the basis of specific performance, potential and people strategy decisions.

With particular reference to *Identified Staff*, the Remuneration and Appointments Committee establishes the compensation structure for top positions, defining the mix of fix and variable compensation elements, consistently with market trends and internal analyses performed.

Moreover, the Board of Directors annually approves the criteria and features of *Identified Staff* incentive plans, ensuring the appropriate balance of variable reward opportunities within the pay-mix structure.

4.1.2 Variable compensation

The variable compensation includes payments depending on performance, independently from how it is measured (profitability goals, volumes, etc.) or on other parameters (e.g. length of service)

Variable compensation aims to remunerate achievements by directly linking pay to performance outcomes in the short, medium and long-term, and risk adjusted .

To strengthen the alignment of shareholders' interest and the interests of management and employees, performance measurement reflects the actual results of the Company overall, the business unit of reference and the individual. As such, variable compensation constitutes a mechanism of meritocratic differentiation and selectivity.

- Adequate range and managerial flexibility in performance-based pay-outs are an inherent characteristic of well-managed, accountable and sustainable variable compensation, which may be awarded via mechanisms differing by time horizon and typology of reward.
- Incentives remunerate the achievement of performance objectives, both quantitative and qualitative, by providing for a variable bonus payment .
- An appropriately balanced performance-based compensation element is encouraged for all employee categories as a key driver of motivation and alignment with organizational goals, and is set as a policy requirement for all business roles.
- The design features, including performance measures and pay mechanisms, must avoid an excessive short-term focus by reflecting the principles of this policy, focusing on parameters linked to profitability and sound risk management, in order to guarantee sustainable performance in the medium and long-term.
- Group common guidelines on the key elements of contracts for *Identified Staff* ensure alignment with regulatory requirements and also with Audit recommendations, in particular regarding contract elements with specific regulatory provisions, such as variable compensation and *severance* provisions.
- More details on the design of remuneration and incentive systems, with particular reference to Control Functions, are reported in the section "*Compliance Drivers*".

Incentive Systems linked to yearly performance

Aim to attract, motivate and retain strategic resources and maintain full alignment with the latest national and international regulatory requirements and with best market's practices.

- Pay-out is based on a “*bonus pool*” approach providing for a comprehensive performance measurement at individual and at Group and local level .
- Reward is directly linked to performance, which is evaluated on the basis of results achieved and on the alignment with our leadership model and values.
- The *Executive Development Plan* (EDP) as the Group-wide framework for *Identified Staff* performance management is a cornerstone of fair and coherent appraisal across the organization.
- For the remaining employees annual incentives are determined on a discretionary basis according to the individual performance appraisal (e.g. *Performance Management*) that foresees a yearly, written, and documented process for the goals setting, self-assessment, managerial assessment and the definition of an individual development plan.
- Where foreseen by regulations, the pay-out is phased to coincide with an appropriate risk time horizon. The design features of incentive plans for *Identified Staff* are aligned with shareholder interests and long-term, firm-wide profitability, providing for an appropriate allocation of a performance related incentive in cash and in shares, upfront and deferred.
- Each year, detailed information about our compensation governance, key figures and the features of our incentive systems, is fully disclosed in the Annual Compensation Report.
- The individuals’ behaviours (compliance with internal and external rules and regulations, absence of disciplinary actions and completion of mandatory training) are also evaluation elements to assign individual incentives.

<p>Long-term loyalty plans</p>	<p>The aim of these plans is the allocation of free shares, in order to build retention, subject to the fulfilment of specific sustainability conditions.</p>	<p>In 2014, FinecoBank's Board of Directors approved the following plans, when applied for listing on the Italian Stock Exchange and subject to the favourable outcome of it:</p> <ul style="list-style-type: none"> ▪ “2014-2017 Multi-year plan Top Management” for the Chief Executive Officer and General Manager and for the Executives with strategic responsibilities; ▪ “2014 Plan Key People” for selected people.

4.1.3 Benefits

<p>Benefits include welfare benefits that are supplementary to social security plans and are intended to provide substantial guarantees for the well-being of staff and their family members during their active career as well as their retirement. In addition, special terms and conditions of access to various FinecoBank and UniCredit Banking products and other services may be offered to employees in order to support them during different stages of their lives</p>	<p>Benefits aim to reflect internal equity and overall coherence of our remuneration systems, catering to the needs of different categories as appropriate and relevant.</p>	<ul style="list-style-type: none"> ▪ In coherence with Group governance framework and Global Job Model, benefits are aligned against general common criteria for each employee category, while benefits plans are established on the basis of FinecoBank practices. ▪ FinecoBank employees can also join the Group Employee Share Ownership Plan, named “Let’s Share” which was launched for the first time in 2008. The plan offers to the participants the opportunity to buy ordinary UniCredit shares and to receive a 25% discount in the form of free shares allocated by the Company with a one-year restriction period.

4.2 Financial Advisors

Financial Advisors are tied to the Company by an agency agreement, under which the Advisor is engaged on a permanent basis (without representation) to provide independent services, exclusively for the Bank, for the promotion and placement of financial instruments and Banking / financial services in Italy, as well as insurance and welfare products or any other products indicated in the contract. Advisors are also responsible for diligently monitoring the assistance to the existing and/or allocated customers in order to fulfil the Company's objectives.

In accordance with existing regulations, contractual relationships with customers acquired by the Financial Advisor, and any other that is subsequently allocated, are conducted exclusively between the customer and the Bank.

FinecoBank's Network of Financial Advisors is composed by:

- Financial Advisors
- Group Managers
- Area Managers

Area Managers are responsible for coordinating Advisors in their geographic area, for growing the business and for reaching the targets set by Commercial Department, and are supported by Group Managers.

The Commercial Department uses Company's internal structures, to provide support to the network. Their tasks are to control the local activities and provide support for commercial activity.

As mentioned in the preamble, the provisions of this Compensation Policy also apply to the members of the Financial Advisors' Network, in line with the Advisors' specific remuneration.

Financial Advisors are freelancers and their remuneration is entirely variable. Therefore regulatory requirements, in order to adapt the same employees' rules on compensation structure, based on a fixed and on a variable component, established for Financial Advisors a distinction between a "recurring" and a "non-recurring" pay component.

Type of remuneration	Purposes	Features
<p>4.2.1 Recurring remuneration</p> <p>This is the most stable and ordinary part of the total remuneration, equivalent to the fixed salary of employees</p>	<p>Recurring remuneration is sufficient to reward the activity rendered even if the variable part of the remuneration package were not paid due to non-achievement of performance goals such as to reduce the risk of excessively risk-oriented behaviours, to discourage initiatives focused on short-term results and to allow a flexible bonus approach.</p>	<ul style="list-style-type: none"> ▪ Sales commission, in other words the payment to the Financial Advisor of a percentage of the sales charge, paid by the customer at the time of purchase of investment instruments. 4.2.2 Non-recurring remuneration

<p>Incentive Systems linked to yearly performance. The design features of the plan is aligned with shareholder interests and long-term, firm-wide profitability of the Bank, providing for an appropriate allocation of a performance related incentive in cash and in shares, upfront and deferred. ▪ For all the Financial Advisors not belonging to <i>Identified Staff</i>, specific incentive systems were defined, as, for example, “<i>Incentive Plans for PFA-Area Managers-Group Managers</i>”, “<i>Additional Future Program</i>”, and “<i>Iniziativa Riqualificazione Prodotti Risparmio Gestito</i>”. ▪ All the incentive systems provide for <i>ex-ante</i> (“entry conditions”) and <i>ex-post</i> (<i>malus</i> on any deferred components) adjustment mechanisms and claw-back clauses. ▪ The individuals’ behaviours (compliance with internal and external rules and regulations and absence of disciplinary actions) are also evaluation elements to assign individual incentives.

2.2 The Role of Company Control Functions: *Compliance, Risk Management and Audit*

Key contributions in 2015 of FinecoBank *Compliance* function, for all aspects that fall within its perimeter and in collaboration with *Group Compliance*, included:

- validation of the 2015 Compensation Policy submitted to the Board of Directors for subsequent approval of the Shareholders' Meeting on April 23rd, 2015;
- validation of the 2015 Incentive System for employees of FinecoBank belonging to *Identified Staff*;
- validation of the 2015 Incentive System for Financial Advisors of FinecoBank belonging to *Identified Staff*;
- preparation – in collaboration with the *Human Resources* function – and distribution of FinecoBank guidelines for the development and management of incentive systems for the population not belonging to *Identified Staff* (ref. *FinecoBank Internal Regulation 23/2015*);
- participation in specific initiatives of *Human Resources* function (e.g.: review of definition of *Identified Staff* for the application of Incentive System).

In 2016, the *Compliance* function will continue to operate in close co-ordination with the *Human Resources* function to support not only in the validation but also in the design and definition of compensation policy and processes.

The link between compensation and risk has been maintained in 2015 with the involvement of the *Risk Management* function in compensation design and the definition of an explicit framework to base remuneration within an overarching FinecoBank *Risk Appetite Framework*, which is consistent with Group *Risk Appetite Framework*, so that incentives to take risk are appropriately constrained by incentives to manage risk. In particular, the Board of Directors and Remuneration and Appointments Committee draw upon the input of involved functions to define the link between profitability, risk and reward within FinecoBank incentive systems.

Internal Audit of the 2015 FinecoBank remuneration policies and practices

The Internal Audit function performed the annual audit on FinecoBank variable remuneration system, in consistency with the provisions issued by Bank of Italy.

The objective was to assess the correct implementation of the 2015 remuneration process, verifying the consistency with internal and external regulations. It has been also performed a follow-up of the recommendations issued by the previous audit

The results of the audit have been presented to the Remuneration and Appointments Committee on March 4th, 2016.

Audit has been conducted on a population in scope that included the following categories, to whom FinecoBank Compensation Policy applies:

- all the employees belonging to “*Identified Staff*”;
- a sample of no. 180 employees not belonging to “*Identified Staff*” (*below executive*), chosen taking into consideration employees that have received in 2015 an incentive higher than Euro 5.000 (around 17% of the overall population on 31/12/15);
- members of Corporate Bodies;
- the Financial Advisors of the Bank, with particular attention to the “non-recurring” remuneration named “Net Inflows Bonus”, representing around 70% of the total variable compensation paid in 2015.

The annual Internal Audit assessment resulted in a satisfactory rating, based on the overall correct implementation of the bonus mechanism, as defined in FinecoBank Compensation Policy, with particular reference to the adherence of the pre-fixed limit of 2:1 (1:1 for the Company Control Functions) for the ratio between variable and fixed remuneration.

Regarding the Financial Advisors Network, it has been suggested to the Management to adopt some improvement actions, focused mainly on the integration of the internal rules of the incentive plans “Bonus Raccolta Netta” with the provision of qualitative goals inspired, *inter alia*, to principles of honesty in the relationship with customers and to adherence to regulatory requirements (e.g. compliance foreseen by MIFID regulation). In particular it is necessary to introduce in all the incentive plans rules:

- goals linked to the fulfilment of the new MIFID questionnaire, released on November 2015, with the adaptation to the rules foreseen by ESMA requirements;
- corrective measures to the incentives to each single Manager in case of behaviour of the coordinated Financial Advisors not compliant with regulations (related to the supervision duties foreseen by the extra responsibility on top of the mandate as Financial Advisor conferred by the Bank.

It is signalled that the improvements proposed have been already accepted by the Management and acknowledged in the 2016 rules.

Regarding the incentive system for the employees, it is necessary to formalize in a more accurate way the goals assigned to below executive population during the Performance Management process.

3. Continuous Monitoring of Market Trends and Practices

Key highlights of the Compensation Policy defined this year with the support of external benchmarking and trends analysis provided by the independent external advisor to the Remuneration and Appointments Committee include:

- the definition of Compensation Policy for the *Identified Staff*, both employees and Financial Advisors, with particular reference to the design of the 2016 incentive systems
- the pay recommendations based on specific benchmarking analysis versus our defined peer group to inform any decision.

The peer group used to benchmark compensation policy and practice with particular reference to employees *Identified Staff* has been defined by the Remuneration and Appointments Committee upon proposal of the independent external advisor on the basis of criteria including: comparability of size, complexity and business model, presence in customer, talent and capital markets, risk and legal-socio-economic environment

The peer group is subject to annual review to assure its continuing relevance. For 2016 it has been defined a national peer group that includes:

- some Banks operating in the same industry of FinecoBank or Banks used by financial analysts as comparable, as:
 - Banca Generali and Generali Investments Europe SGR
 - Allianz Bank Financial Advisor
 - Gruppo Mediolanum
 - Azimut
- positions of Asset Management, Wealth Management, Trading internal to national Banks:
 - Banca Popolare Vicenza
 - BNP Paribas (BNP Investment Partners included)
 - BPER
 - Credem
 - Deutsche Bank
 - Gruppo Banco Popolare (*Prospect*)
 - Gruppo Generali
 - ING Direct
 - Gruppo Mediobanca (CheBanca and Banca Esperia)
 - Monte Paschi di Siena
 - Intesa SanPaolo
 - UBI Banca
 - Veneto Banca (*Prospect*)

In addition to what mentioned above, for the Chief Executive Officer and General Manager and for the Executives with strategic responsibilities it will be realized a benchmark also with European market, based on a sample of European Banks.

Only for the Chief Executive Officer and General Manager it will be added also a benchmark with a sample of European Banks with Wealth Management, Asset Management and Private Banking activities, trading platform, on top of a US comparables' analysis.

4. Compensation paid to Members of the Administrative and Auditing Bodies, to General Managers and to other Executives with strategic responsibilities

1. Total compensation for the entire Board of Directors (Executive Directors included) approved by the Shareholders' Meeting is equal to € 370.000. 2. Even if these meetings held in the same day. 3. Alternate Auditors do not receive any compensation unless they are actually asked to join the Board of Statutory Auditors in substitution of a standing member. 4. The Board of Directors has identified as "Executives with strategic responsibilities" – to the ends of the application of all statutory and regulatory instructions – the Chief Executive Officer and General Manager, the Deputy General Manager and Head of Global Banking Services, the Deputy General Manager and Head of Direct Banking, the Head of Commercial PFA Network, the Head of Investment Services and Wealth Management as well as the Chief Financial Officer.				

Further details on compensation of Executives with strategic responsibilities

For 2015, according to our Compensation Policy, in line with regulatory provisions, it has been defined *ex-ante* the maximum ratio between variable and fix component of the compensation both for the Chief Executive Officer and General Manager (the sole executive director sitting on the Board of Directors and employee of the Company) and for the other Executives with strategic responsibilities.

The balance between variable and fixed components has been defined considering also the Company's strategic goals, risk management policies and other elements influencing firm's business.

With reference to the above table, for Executives with strategic responsibilities it is specified that:

- the fix component is defined taking into opportune consideration market information and in such a way to be sufficient to reward the activity rendered even if the variable part of the remuneration package were not paid due to non-achievement of performance goals;
- in line with the latest regulatory requirements, the Chief Executive Officer and General Manager – as well as the Executives with strategic responsibilities – have a balanced part of their remuneration linked to the overall profitability of FinecoBank and the Group, weighted by risk and cost of capital, as well as sustainability goals (based on capital and liquidity ratios) of FinecoBank and the Group.

The variable compensation considers the achievement of specific goals which are previously approved by the Board of Directors upon proposal of the Remuneration and Appointments Committee and heard the opinion of Board of the Statutory Auditors, as appropriate.

In particular, *ex-ante* defined specific metrics that reflect categories of our FinecoBank *Risk Appetite Framework*, which is consistent with *Group Risk Appetite Framework*, align the remuneration of the Chief Executive Officer and General Manager and of the others Executives with strategic responsibilities to sustainable performance and value creation for the shareholders in a medium / long term perspective. Specific individual goals are set out taking into consideration the market practices and the role assigned within the Bank, through the systematic use of specific indicators aimed at strengthening the sustainability of business, such as, for example, the satisfaction of the customer, risk and financial sustainability indicators and profitability measures. → [More information regarding our performance management and evaluation are provided further in chapter 5.4](#)

It is also foreseen the deferral in cash and shares of minimum 60% of the incentive. All the instalments are subject to the application of *malus* and/or claw-back conditions, if legally enforceable. 2015 Incentive System provides for 50% of the annual incentive to be deferred and paid in the five following years through the granting of Fineco shares. The number of such shares is set at the beginning of the deferring period, thus creating a link between the evolution of the share price and the actual value of the incentive. → [More information regarding the 2015 incentive plan implementation and outcomes are provided further in chapter 5.2.](#)

The Chief Executive Officer and General Manager, on top of 2015 Incentive System, benefits also from:

- “2012 Group Incentive System – Executive Vice President”
- “2013 Group Incentive System – Executive Vice President & Above”
- “2014 Group Incentive System – Executive Vice President & Above”
- “2014-2017 Multi-year Plan Top Management”

→ [More information regarding the plans above mentioned are provided further in chapters 6 and 7.](#)

The measure and duration of the deferral are aligned with the provisions set by regulators and are consistent with the characteristics of the business and with the Company's risk profiles.

For the Heads of the Company Control Functions the goals, pursuant to the provisions of Bank of Italy, are established by the Board of Directors in line with the tasks assigned to them and avoiding, unless good reasons exist, goals connected to the Bank's performance.

Indemnities to directors in the event of resignations, dismissal or termination of employment following a public purchase offer (as per section 123/bis, paragraph 1, letter i), of TUF):

None of the Directors have contracts containing clauses envisaging the payment of indemnities, or the right to keep post-retirement benefits, in the event of resignations or dismissal / revocation without just cause or if the employment relationship is terminated following a public purchase offer. In case of early termination of the mandate, the ordinary law provisions would therefore apply.

The individual employment, as Executive, of the Chief Executive Officer and General Manager, Mr. Alessandro Foti, is today governed - also with regards to the event of resignations, dismissal / revocation or termination - by the ordinary provisions of the law and National Labor Agreement for Banking Industry Executives dated February 29, 2012 renewed with the Agreement dated July 13, 2015. In such context, the annual remuneration used to define the possible indemnity due in the above mentioned instances would include the fix remuneration, any other continuative compensation and the average of the variable pay (inclusive of the components paid in equity - such as for example free shares, restricted shares, performance shares - with the only exclusion of the valorisation of the stock options potentially assigned within long-term incentive plans) received in the last three years prior to the termination. The actual amount of such indemnity – in terms of months of compensation considered – is then bound to vary depending on the events which led to the termination and on the relationship's duration and is anyway subjected to provisions of the "Termination Payments Policy" of FinecoBank approved by Shareholders' Meeting on April 23rd, 2015.

Non-executive Directors do not receive, within incentive plans, stock options or others equities. For the Chief Executive Officer and General Manager no specific provisions are provided with reference to the right to keep, in case of termination, the options received and the plans' provisions apply.

For none of the Directors currently in office, provisions exist regarding the establishment of advisory contracts for a term following the termination of the directorship, nor the right to keep post retirement perks. No agreements exist either providing compensation for non-competition undertakings.

5. Compensation Systems

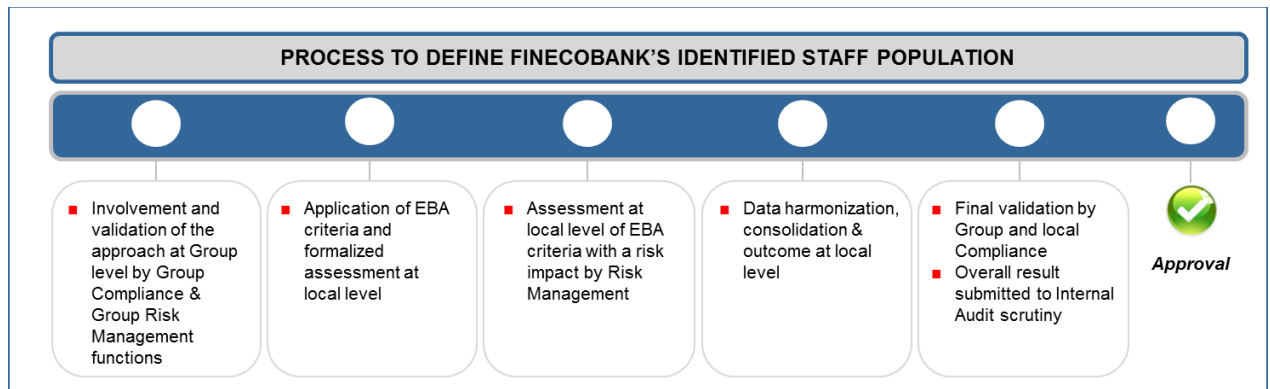

5.1 Target population

FinecoBank, starting from 2014 conducted, in alignment with specific regulation, the annual self-evaluation process to define *Identified Staff* population, both employees and Financial Advisors, to whom, according to regulators, specific remuneration rules apply

The identification of 2016 *Identified Staff*, pursuant to the European criteria foreseen in the *European Banking Authority Regulatory Technical Standard (RTS)*¹⁷, followed a structured and formalized assessment process both at Group and local level, based on the guidelines provided by the Group functions *Human Resources* with the contribution of *Risk Management* and *Compliance*, to guarantee a unique and common approach at Group level.

At local level, the control functions mentioned above have been appropriately involved for their respective areas of competence.

The recognition of employee with significant impact on Group and local risk took into account the role, the decision-making power, the effective responsibilities of the employees and of the Financial Advisors and, in addition, the total compensation level.

The result of the assessment process, submitted to Internal Audit scrutiny and documented into FinecoBank Compensation Policy, brought to the identification of a total number of 13 employees and 11 Financial Advisors for 2016¹⁸.

Regarding the employees, as a result of the analysis and as approved by the Board of Directors upon Remuneration and Appointments Committee proposal, the following categories of employees have been confirmed for 2016 as *Identified Staff*: Chief Executive Officer and General Manager, Executives with strategic responsibilities, executive positions in Company Control Functions (*Compliance*, *Risk Management* and *Human Resources*) and other positions that are responsible at local level for strategic decisions which may have a relevant impact on the Bank's risk profile. → [Compensation data and vehicles used for the target population in 2015 are disclosed in chapters 6 e 7.](#)

¹⁷ European Banking Authority (EBA) *Regulatory Technical Standards* on criteria to identify categories of staff whose professional activities have a material impact on an institution's risk profile under Article 94 (2) of Directive 2013/36/EU.

¹⁸ *Identified Staff* data refers to the population at the date of January 2016, providing for an *ex-ante* definition, in line with regulatory requirements.

Regarding the Financial Advisors, FinecoBank has applied a qualitative criteria to select those belonging to *Identified Staff*, on the basis of their impact on business risk (represented by the risk that the Bank's profitability decreases consequently to the exit of Advisors from the Network and the related loss of customers and assets), the only type of risk that the Bank considers attributable to PFA, due to the absence of power of attorney they have to assume any other kind of risks.

As a result of the analysis and as approved by the Board of Directors upon Remuneration and Appointments Committee proposal, the following categories of employees have been identified for 2016 as *Identified Staff*:

- for the single PFA the criteria above mentioned has been applied selecting those Advisors who have a total yearly compensation higher/equal to Euro 750,000;
- for PFA who have a managerial role have been selected Managers that coordinate Advisors with a total asset higher/equal to 5% of the total asset of the PFA Network.

5.2 Implementation and Outcomes of 2015 Incentive Systems

5.2.1 2015 Incentive System for employees belonging to *Identified Staff*

The 2015 Incentive System, approved by FinecoBank Board of Directors on January 22nd, 2015, provides for a "*bonus pool*" approach which directly links bonuses with Company results at Group and local level, ensuring the link between profitability, risk and reward.

The System, implemented within the framework of our policy and governance, provides for the allocation of a performance related bonus in cash and/or free ordinary shares over maximum 6 years.

Bonus pool sizing

The bonus pool dimension is related to the actual profitability measure multiplied for the percentage of the bonus pool funding rate defined in the budgeting phase.

This calculation determines the so called "theoretical bonus pool", that, during the year of performance, has been adjusted based on the effective performance trend.

2015 Entry conditions at Group and local level

In order to align to regulatory requirements, specific indicators measuring annual profitability, solidity and liquidity results had been set both local and Group level as Entry Conditions. In particular, risk metrics and thresholds for 2015 Incentive System as defined within the Entry Conditions that confirm, reduce or cancel upfront and deferred pay-outs include:

Group level	Local level
Net Operating Profit adjusted ≥ 0 and	Net Operating Profit adjusted ≥ 0 and
Net Profit ≥ 0 and	Net Profit ≥ 0
Common Equity Tier 1 ratio transitional $\geq 7\%$ and	
Cash Horizon ≥ 90 days	

- **Net Operating Profit adjusted** to measure the profitability, is the NOP excluding income from buy-back of own debt and from the fair value accounting of own liabilities.
- **Net Profit** to measure profitability considering the results stated in the balance sheet excluding any extraordinary item as considered appropriate by the Board of Directors upon Remuneration and Appointments Committee proposal.
- **Common Equity Tier 1 Ratio Transitional** to measure the bank's solidity in terms of highest quality common equity introduced by Basel 3, consistent with regulatory limits and conservation buffers.
- **Cash Horizon** to measure the Bank's capacity to face up to its liquidity obligations consistent with Basel 3 Horizon Liquidity Coverage. The threshold is set at 90 days.

According to the actual results, verified and approved by the Board of Directors of FinecoBank on February 8th, 2016, and by the Board of Directors of UniCredit on February 9th, 2016, at local and Group level the relevant entry conditions have been achieved. As a consequence, FinecoBank bonus pool falls in a range between 50% and 150% of the theoretical bonus pool value, calculated applying the funding rate percentage to the actual profitability results

The Entry Conditions were achieved both at Group and local level.

Therefore, no *malus* condition is activated both for 2015 incentive and installments referred to previous years deferral.

Risk & Financial sustainability

After the verification of the Entry Conditions achievement, the actual bonus pool of FinecoBank had been adjusted within respective ranges, based on the assessment of the overall financial and risk sustainability evaluated by CRO & CFO dashboards including respectively:

- risk indicators linked to local *RAF (Risk Appetite Framework)*, to evaluate risk sustainability
- performance indicators connected with the Multi-Year Strategic Plan, to evaluate the financial sustainability

Evaluation and pay-out for Identified Staff

In line with FinecoBank governance, 2015 evaluations and pay-outs for Chief Executive Officer and General Manager, Deputy General Managers, other Executives with strategic responsibilities and other *Identified Staff* have been approved by the Board of Directors, based on favourable advice of Remuneration and Appointments Committee

The Board of Directors of FinecoBank on February 8th, 2016, has approved the allocation of a total number of shares equal to 210.288 to be assigned in 2018, 2019, 2020 and 2021.

5.2.2 2015 Incentive System for Financial Advisors belonging to *Identified Staff*

The 2015 Incentive System PFA, approved by FinecoBank Board of Directors on March 10th 2015, takes into consideration the most recent national and international regulatory requirements and directly links bonuses with the objectives of growth in the medium and long term, in a general framework of overall sustainability.

The System, implemented within the framework of our policy and governance, provides for the allocation of a performance related bonus in cash and/or Phantom shares over 5 years.

Based on the effective results approved by the Board of Directors of FinecoBank on February 8th, 2016, all entry conditions were achieved and was approved the allocation of a total number of Phantom shares equal to 45.171 to be assigned in 2018, 2019 and 2020.

5.3 2016 Incentive System for employees belonging to *Identified Staff*

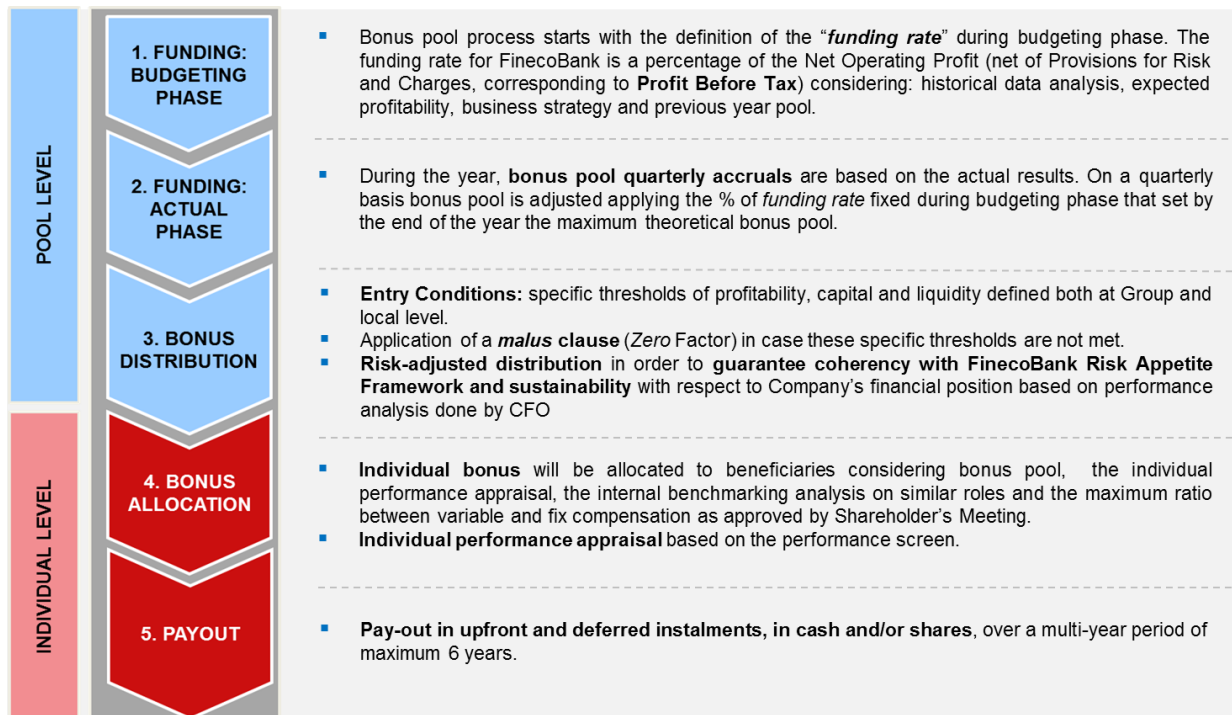

As in the past years, the 2016 Incentive System, as approved by the Board of Directors of FinecoBank on January 12th, 2016, is based on a “*bonus pool*” approach which takes into consideration most recent national and international regulatory requirements and directly links bonuses with Company results at Group and local level, ensuring the link between profitability, risk and reward.

In particular, the system provides for:

- allocation of a variable incentive defined on the basis of the determined bonus pool, of the individual performance appraisal and of the internal benchmarking on similar roles as well as compliant with the ratio between fixed and variable remuneration approved by the Shareholder’s Meeting;
- definition of a balanced structure of “upfront” (following the moment of performance evaluation) and “deferred” payments, in cash and in shares, to be paid over a period of up to maximum 6 years;
- distributions of share payments which take into account the applicable regulatory requirements regarding the application of share retention periods. In fact the

- payment structure defined requires a retention period on shares (of 2 years for upfront shares and of 1 year for deferred shares);
- risk adjusted measures in order to guarantee long-term sustainability, regarding Company financial position and to ensure compliance with regulations;
 - a *malus* clause (Zero Factor) which applies in case specific thresholds (profitability, capital and liquidity) are not met at both Group and local level. In particular, the bonus pool of 2016 will be zeroed, while previous systems deferrals could be reduced from 50% to 100% of their value, based on final effective results and dashboards assessments done by CRO and CFO.

The bonus pool process includes the following steps:

1. FUNDING: BUDGETING PHASE

- Bonus pool process starts with the definition of the “funding rate” during budgeting phase. The funding rate for FinecoBank is a percentage of the Net Operating Profit (net of Provisions for Risk and Charges, corresponding to Profit Before Tax) considering: historical data analysis, expected profitability, business strategy and previous year pool. The bonus pool is submitted for approval to the Board of Directors of FinecoBank.

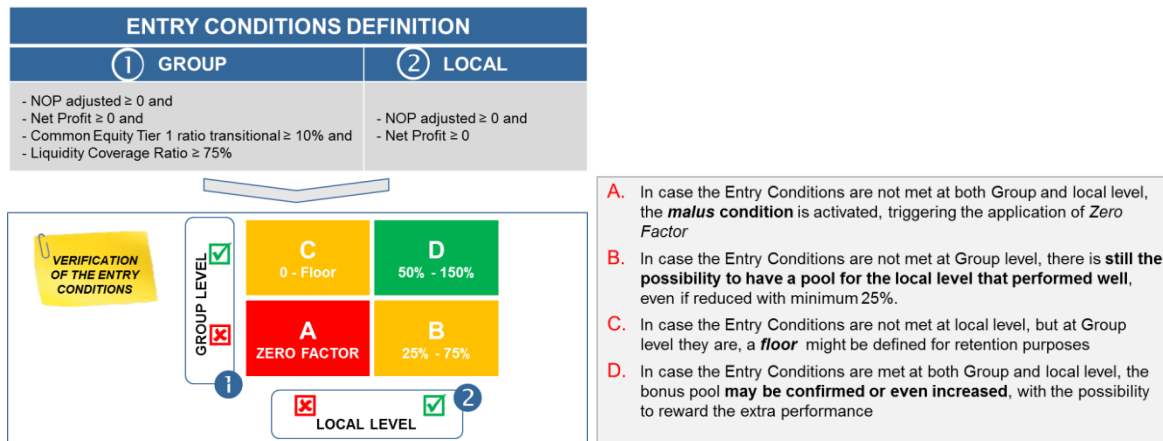

2. FUNDING: ACTUAL PHASE

- During the year of performance, quarterly accruals are based on the actual results;
- on a quarterly basis bonus pool is adjusted applying the % of *funding rate* fixed during budgeting phase that set by the end of the year the maximum theoretical bonus pool.

3. BONUS DISTRIBUTION

- Consistency with FinecoBank performance and sustainability is ensured through specific “Entry Conditions” set at both Group and local level;
- application of a *malus* clause in case specific profitability, liquidity and capital thresholds are not reached at Group and local level;
- the distribution is risk adjusted in order to guarantee sustainability with respect to Company’s financial position based on FinecoBank *Risk Appetite Framework* and further performance analysis done by CFO;
- the bonus pool is proposed by FinecoBank on the basis of the year forecast – risk-adjusted – both at Group and local level.

The Entry Conditions are the mechanism that determines the possible application of *malus* clause (Zero Factor) on the basis of performance indicators in terms of profitability, capital and liquidity defined at both Group and local level.

- *NOP adjusted*: Net Operating Profit (NOP) excluding income from buy-back of own debt and from the fair value accounting of own liabilities.
- *Net Profit*: Net Profit stated in the Balance Sheet, excluding any extraordinary items as considered appropriate by the Board of Directors upon Remuneration and Appointments Committee proposal.
- *Common Equity Tier 1 Ratio Transitional*: the level of CET1 Ratio transitional, certified by Group CFO, ensures the alignment with the threshold set as the outcome of the SREP process (Supervisory Review and Evaluation Process) coordinated by the European Central Bank. The level of 10% includes also the 0,25% buffer set for systemically relevant banks for 2016.
- *Liquidity Coverage Ratio*, aims to ensure that banks maintain an adequate level of not restricted "High Quality Liquid Assets" in a sufficient quantity to cover the overall 'Net Cash Outflows', over a period of thirty days, under gravely stressed conditions specified by Supervisors.

In order to align to regulatory requirements, in case both at Group and local level set KPIs are not met (box A of the matrix included in the scheme “Entry Conditions definition”), a Zero Factor will apply to the *Identified Staff* population¹⁹ whereas for the rest of the population it could be applied a Zero Factor or it could be allocated a discretionary pool for retention purposes and/or to maintain the minimum pay levels needed to play in the market. Moreover, at individual level it will be also considered the respect and the individual adherence to provisions of discipline, conduct and behaviour and the application of claw-back clauses, as legally enforceable.

In case entry conditions are met at local level (boxes B and D of the matrix included in the scheme “Entry Conditions definition”), bonus pool adjustments will be applied within

¹⁹ The bonus pool of 2016 will be zeroed, while deferrals of previous year systems could be reduced from 50% to 100% of their value, based on final effective results and dashboard assessments done by CFO and CRO.

respective ranges based on the assessment of local and Group performance and risk factors.

The Group and local risk dashboards include indicators covering all relevant risks including cost of capital and different risks such as credit, market and liquidity and are measured against their relevant thresholds (limit, trigger and target), which are set in alignment with *Risk Appetite Framework* of FinecoBank and the Group.

Group and local CFO performs a further performance analysis on the main performance and sustainability KPIs defined in the local and Group performance dashboard.

The relevant overall assessment on the CRO and CFO evaluations brings to the definition of a “multiplier” to be applied to adjust the bonus pool; the application of a further discretionary range, up to +20%, in the faculty of Board of Directors, while no limits to downward discretionally the bonus pool with respect to theoretical value is foreseen:

In case the Entry Conditions are not met at local level, but at Group level they are (box C of the matrix included in the scheme “Entry Conditions definition”), a floor might be defined for retention purposes and in order to maintain the minimum pay levels needed to play in the market. In this specific case, no specific sub-ranges can be applied, however the decision regarding pool size from 0 to the Floor level will also consider CRO & CFO dashboards assessment.

In any case, as requested by regulations as per Bank of Italy provisions, the final evaluation of sustainable performance parameters and the alignment between risk and remuneration will be assessed by Remuneration and Appointments Committee and defined under the governance and accountability of the Board of Directors.

The Board of Directors does not take into account, when deciding bonus, balance sheet extraordinary items which do not impact operational performance, regulatory capital and liquidity (e.g. goodwill impairment, extraordinary contributions to deposit guarantee schemes, etc.).

Moreover, following potential changes in current regulations and/or in relation to potential extraordinary and/or unpredictable contingencies which can impact the Group, the Company or the market in which it operates, the Board of Directors, having heard the opinion of Remuneration and Appointments Committee, maintains the right to amend the system and relevant rules.

4. BONUS ALLOCATION

- Individual bonus will be allocated to beneficiaries considering bonus pool, the individual performance appraisal, the internal benchmarking analysis on similar roles and the maximum ratio between variable and fix compensation as approved by Shareholder's Meeting;
- individual performance appraisal is based on 2016 performance screen: a minimum of 4 individual goals assigned during the performance year, selected also from our catalogue of main key performance indicators ("KPI Bluebook") and based on the 5 Fundamentals of Group Competency Model²⁰. All goals carry the same weight for evaluation purposes. Competencies and behaviours considered as relevant can be taken into account by the manager for the overall performance appraisal; → [Further details in chapter 5.4](#)
- the goals appraisal system is based on a 1-5 values scale with a descriptive outcome (from "Below Expectations" to "Greatly Exceeds Expectations").

5. BONUS PAY-OUT

- As approved by the Board of Directors of January 12nd, 2016, with reference to pay-out structure, the *Identified Staff* population will be differentiated into two clusters, using a combined approach of banding and compensation:
 - CEO/GM and 1st reporting line: 5 years deferral scheme;
 - Other *Identified Staff*: 3 years deferral scheme.
- The pay-out of incentives will be done through upfront and deferred instalments, in cash

REGULATORY REQUIREMENTS

- The payment structure of 2016 Incentive System has been defined in line with the applicable regulatory requirements:
 - 5-year deferral period maintained only for Top Management and selected key senior roles. In general a deferral period from 3 to 5 years is required, and the request for 5 years is limited to «high earners», Top Management and Head of key business lines as well as the direct reports to strategic supervisory, management and control bodies
 - minimum 50% of bonus to be allocated in shares or other financial instruments
 - minimum 40% of bonus to be paid out under a deferral period (minimum 60% for specific positions and particularly high amounts)
 - 2 years minimum retention period for the upfront shares and shorter retention period (1 year) for the deferred shares

²⁰ Group Competency Model represents the framework in which the Executives are assessed within the Executive Development Plan process. The 5 Fundamental are: Client Obsession, Execution & Discipline, Cooperation and Synergies, Risk management, People and Business Development.

or in Fineco ordinary shares, up to a maximum 6-year period:

- in 2017 the first instalment of the total incentive will be paid in cash in absence of any individual / values compliance breach²¹;
- over the period 2018-2022 the remaining part of the overall incentive will be paid in cash and/or Fineco ordinary shares; each further tranche will be subject to the application of the Zero Factor for the year of allocation and in absence of any individual / values compliance breach²¹;

- all the instalments are subject to the application of claw-back conditions, as legally enforceable;
- in coherence with 2015, a minimum threshold²² will be introduced, below which no deferral mechanisms will be applied, accordingly with relevant regulatory indications;
- the number of shares to be allocated in the respective instalments shall be defined in 2017, on the basis of the arithmetic mean of the official closing market price of Fineco ordinary shares during the month preceding the Board resolution that evaluates 2016 performance achievements;
- free Fineco ordinary shares that will be allocated will be freely transferable;
- the payment structure has been defined in line with Bank of Italy provisions requiring a share retention period for upfront and deferred shares. In particular, the implementation of the share retention periods may be carried out in line with the fiscal framework, either via the allocation of restricted shares or the promise of shares that shall subsequently be allocated at the end of the intended retention period;
- the 2016 Incentive System provides for an expected impact on FinecoBank share capital of approximately 0,06%, assuming that all free shares for employees have been distributed. The overall dilution for all other current outstanding FinecoBank equity-based plans equals 0,61%;
- the beneficiaries cannot activate programs or agreements that specifically protect the value of unavailable financial instruments assigned within the incentive plans. Any form of coverage will be considered a violation of compliance rules and imply the consequences set out in the regulations, rules and procedures.

²¹ Considering also the gravity of any internal/external findings (e.g. Audit, Bank of Italy, Consob and/or analogous local authorities).

²² Equal to Euro 75.000 that will be paid in cash.

5.4 Comprehensive Performance Measurement

The 2016 Incentive System, described in the chapter 5.3, is supported by an annual performance measurement framework assuring coherence, consistency and clarity of performance objectives with business strategy, and encouraging and rewarding desired behaviours and risk orientation. Our performance management process ensures that to all *Identified Staff* are assigned at the beginning of the year their own individual goals and includes a rigorous review of their goals achievements.

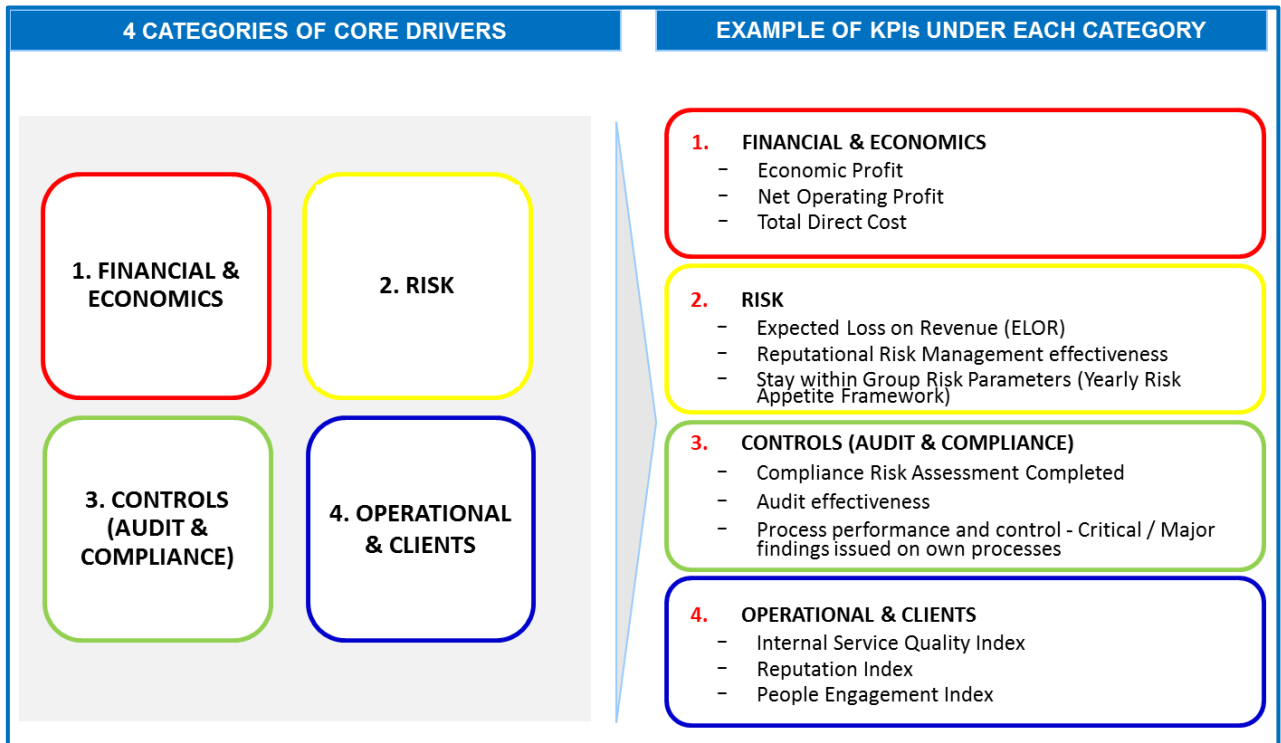

A specific process is performed annually at Group level with the involvement of key relevant functions (*Human Resources, Strategy & Finance, Risk Management, Compliance, Group Sustainability, Audit, Group Stakeholder and Service Intelligence*) to review the so-called *KPI Bluebook*.

The *KPI Bluebook* serves as the framework for the definition of performance goals coherent, high quality based, aligned to business strategy, compliant with regulatory requirements and consistent with our corporate values and Group Competency model. Therefore it supports the employees and their managers in the definition of individual Performance Screen.

KPI Bluebook includes a list of indicators certified at Group level, as well as specific guidelines related to:

- the use of risk-adjusted goal (e.g. select at least one KPI belonging to “Risk category” or related to risk management / risk-adjusted profitability)
- the use of sustainability objectives (e.g. at least half of the goals should be related to sustainability)
- the definition of the target of reference, in case objectives not included in certified list are selected(e.g. use clear and pre-defined parameters for future evaluation of performance)
- the selection of goals for the Company Control Functions, in order to ensure their independence (e.g. avoid KPI linked to economic measure).

The *KPI Bluebook* maps 4 categories of core drivers that include a list of goals (*KPI Dashboard*):

The 4 categories represent financial and non-financial performance and are mapped into 12 clusters of business (Asset Gathering included) to help identifying the most relevant standardized KPIs (all certified by relevant Group functions) for each business, with specific focus on risk-adjusted, sustainability-driven metrics and economic measures.

2016 Chief Executive Officer and General Manager Performance Screen

2016 KPIs defined and approved by FinecoBank Board of Directors as the core drivers of performance for FinecoBank Chief Executive Officer and General Manager include goals related to Bank profitability, with particular focus on risk, consistency with *Risk Appetite Framework* and sustainability. For 2016 a specific KPI has been introduced, with reference to “*Tone from the top*” related to integrity towards conduct principles and spread of compliance culture among the organization.

5.5 2016 Incentive System for Financial Advisors belonging to *Identified Staff*

The 2016 Incentive System PFA, as approved by the Board of Directors of FinecoBank on January 12th, 2016, aims to retain and motivate beneficiary Advisors in compliance with the most recent national and international regulatory requirements with the aim to define – in the interest of all stakeholders – incentive systems in line with long-term Company strategies and goals, linked to Bank results, adjusted in order to consider all risks, in coherence with capital and liquidity levels needed to cover the activities in place and, in any case, able to avoid misleading incentives that could drive to regulatory breaches or to assume excessive risks for the Bank and the system in its whole.

In particular the system provides for:

- allocation of a variable incentive defined on the basis of the available bonus pool, individual performance evaluation and bonus cap as set by the Ordinary Shareholder's meeting;
- definition of a balanced structure of “upfront” (done at the moment of performance evaluation) and “deferred payments”, in cash and in Fineco ordinary shares;
- distribution of Fineco share payments, coherently with the applicable regulatory requirements regarding the application of share retention periods. In fact the payment structure defined requires a retention period on Fineco shares (of 2 years for upfront shares and of 1 year for deferred shares);
- risk-adjusted metrics in order to guarantee long-term sustainability with respect to Company's financial position and to ensure compliance with regulatory expectations;

- *malus* clause (Zero Factor) applies in case specific thresholds (capital and liquidity) are not met at both Group and local level (at local level also profitability will be considered). In particular, the bonus pool of 2016 will be zeroed.

Total incentive pay-out as defined will be made over a multi-year period (2017-2021), as indicated below, in absence of any individual / values compliance breach, considering also the gravity of any internal / external findings (e.g. Audit, Consob and/or analogous local authorities) and provided that the agency relationship of the beneficiaries is in place at the time of each payment:

- in 2017 the first instalment of the overall incentive will be paid in cash;
- over the period 2018-2021 the remaining amount of the overall incentive will be paid in several instalments in cash and/or FinecoBank ordinary shares; each further instalments will be subject to the application of the Zero Factor for the year of allocation;

	2017	2018	2019	2020	2021
Financial Advisors belonging to <i>Identified Staff</i>	30% cash	10% cash	30% shares	10% cash + 10% shares	10% shares

- it's foreseen a specific minimum threshold²³ below which deferrals and instruments will not be applied;
- the number of shares to be allocated with the third, fourth and fifth instalments will be defined in the year 2017, on the basis of the arithmetic mean of the official closing price of the shares in the month before the date of the resolution by the Board of Directors that evaluates 2016 performance achievements; the maximum impact on the share capital is about 0,04% in case all the shares would be assigned to the Financial Advisors beneficiaries;
- Fineco ordinary shares that will be allocated will be freely transferable;
- the beneficiaries cannot activate programs or agreements that specifically protect the value of unavailable financial instruments assigned within the incentive plans.

²³ Equal to Euro 75.000 that will be paid in cash.

- *Identified Staff* are offered opportunities for variable compensation in line with their strategic role, regulatory requirements and our pay for performance culture;
- the general employee population is offered a balanced pay-mix in line with the role, scope and business or market context of reference.

6.3. Benefits Data

Our employees enjoy welfare, healthcare and life balance benefits that supplement social security plans and minimum contractual requirements. These benefits are intended to provide substantial guarantees for the well-being of staff and their family members during their active careers as well as in retirement.

In Italy, among the complementary pension plans, there are both defined performance funds (whose performances, which come to fruition once the retirement requirements are reached, are known in advance as they are set by the fund statute) and defined contribution plans (whose performances depend on the results of the asset management).

Complementary pension plans can also be classified as external or internal pension funds, where external funds are legally autonomous from the Group, while internal funds are accounting items entered into UniCredit S.p.A.'s balance sheet, whose creditor counterparts are the employees enrolled (both active and retired).

Both these categories are closed and, as such, they do not allow new subscriptions. The only exception is represented by the individual capitalization section of the "Fondo Pensione per il Personale delle Aziende del Gruppo UniCredit". Within this section (which counted approximately 35.000 enrolled active employees in 2015) subscribers can distribute their contribution – depending on their own risk appetite – among four investment lines (Insurance, Short, Medium and Long Term) characterized by different risk / yield ratios. In addition, always in this section, the enrolled employees may open complementary pension plan positions in favour of their family members dependent for tax purposes.

7. Compensation Tables

7.1 Disclosure as per section 84-quater of the Italian National Commission for Listed Companies (Consob) Issuers Regulation no.11971

A set of tables presents in the following pages the information that the Company is required to provide as per Section 84-quater of Consob's Issuers Regulation nr. 11971.

For a more detailed understanding of the methodological criteria underlying the information reported in the various tables, reference is made to Annex 3A of the said Consob Regulation.

In particular:

TABLE 1: Compensation paid to members of the Administrative and Auditing Bodies, to General Managers and to other Executives with strategic responsibilities

Provides, at an individual level and on an accrual basis, the details of the compensation paid to the Chief Executive Officer and General Manager, to the members of the Board of Directors and of the Board of Statutory Auditors.

For the other 5 Executives with strategic responsibilities the information is provided on an aggregate basis.

The overall compensation paid by FinecoBank to the Board of Directors for 2015 amounts to Euro 1.885.755

The overall compensation paid by FinecoBank to the Board of Statutory Auditors for 2015 amounts to Euro 167.571.

The "Fair value of equity compensation" (column 7) does not represent a value actually paid to/gained by the beneficiaries of equity plans, being instead the cost that the Company is booking - on an accrual basis and during the vesting period - in consideration of the provision of the incentives based on financial instruments. More details on such plans are provided at the following Table 2 and Table 3A.

TABLE 2: Stock Options assigned to the members of the Administrative Body, to General Managers and other Executives with strategic responsibilities

Nor the non-executive members of the Board of Directors, nor the members of the Board of Statutory Auditors benefit from any incentive plan, be it based on financial instruments or cash.

Only the Chief Executive Officer and General Manager and the Executives with strategic responsibilities benefit from Stock Option/Performance Stock Options plans launched by UniCredit Group in the previous years.

At current prices, all stock options, for which it could be possible to exercise the right ("vested"), are largely underwater.

TABLE 3A: Incentive plans based on financial instruments other than stock options, in favour of members of the Administrative Body, General Managers and other Executives with strategic responsibilities

The table reports - additionally to the shares granted within medium and/or long term incentive and retention equity plans - also the number of shares promised and/or granted in connection with the deferral of the annual incentive systems.

TABLE 3B: Monetary Incentive Plans in Favour of Members of the Administrative Body, General Managers and other Executives with strategic responsibilities

Provides the details of all the cash incentives accrued during the year in favour of the Chief Executive Officer and General Manager and of the other Executives with strategic responsibilities. Neither the non-executive members of the Board of Directors, nor the Statutory Auditors receive any variable compensation.

Information on the investments held by the members of the Administrative and Auditing Bodies, by General Managers and by other Executives with strategic responsibilities

Table 1 and Table 2, drafted in compliance with schedule 7-ter, provide the shareholding in FinecoBank held by the Chief Executive Officer and General Manager, the other members of the Board of Directors, the members of the Board of Statutory Auditors and the other Executives with strategic responsibilities.

Pursuant to the definition set forth in article 84-bis of the issuer regulations, the above mentioned incentive plans, in consideration of their beneficiaries, have the nature of “relevant plans”.

2. 2016 INCENTIVE SYSTEM

In compliance with the last Bank of Italy provisions set forth in Circular 285, December 17th, 2013 (Section “*Regulations on remuneration and incentive policies and practices of Banks and Banking groups*”) – VII Update of November 18th, 2014, First Part, Title IV, Chapter 2, implementing the *Capital Requirements Directive 2013/36/EU (CRD IV)* and in line with the guidelines issued by *European Banking Authority (EBA)*, FinecoBank defined compensation systems based on financial instruments in order to align shareholders and management interests, reward long-term value creation, share price appreciation and motivate and retain key resources of FinecoBank. For this purpose it was proposed the adoption of the Plan “**2016 Incentive System**” (hereinafter also “**2016 System**”), which provides for the allocation of an incentive – in cash and/or free Fineco ordinary shares – to be granted in a multi-year period, subject to the achievement of specific performance objectives.

The employees of FinecoBank that benefit from the 2016 Incentive System are 13 *Identified Staff* whose activities have impacts on Bank’s risks as specified in section 2.1.2.

c) other categories of employees or collaborators for which different characteristics are envisaged for the plan (e.g. executives, middle management, employees etc.)

There are no classes of employees to which different characteristics of the 2016 Incentive System apply.

2.2 THE REASONS FOR THE ADOPTION OF THE PLAN

2.2.1 The targets which the parties intend to reach through the adoption of the plan

The 2016 Incentive System aims to attract, retain and motivate FinecoBank beneficiaries in compliance with the most recent national and international regulatory requirements with the aim to define – in the interest of all stakeholders – incentive systems in line with long-term Company strategies and goals, linked to Bank results, adjusted in order to consider all risks, in coherence with capital and liquidity levels needed to cover the activities in place and, in any case, able to avoid misleading incentives that could drive to regulatory breaches or to assume excessive risks for the Bank and the system in its whole.

The 2016 Incentive System is compliant with FinecoBank Compensation Policy and with the most recent national and international regulatory requirements providing for:

- allocation of a variable incentive defined based on available bonus pool, individual performance evaluation, internal benchmark for specific roles and bonus cap as set by the Ordinary Shareholder's meeting;
- definition of a balanced structure of “upfront” (done at the moment of performance evaluation) and “deferred payments”, in cash and in shares;
- distribution of share payments, coherently with the applicable regulatory requirements regarding the application of share retention periods. In fact the payment structure defined requires a retention period on shares (of 2 years for upfront shares and of 1 year for deferred shares);
- risk-adjusted metrics in order to guarantee long-term sustainability with respect to Company's financial position and to ensure compliance with regulatory expectations;
- *malus clause (Zero Factor)* applies in case specific thresholds (profitability, capital and liquidity) are not met at both Group and local level. In particular, the bonus pool of 2016 will be zeroed, while previous systems deferrals could be reduced from 50% to 100% of their value, based on final effective results and dashboards assessments done by CRO and CFO.

2.2.2 Principal factors of variation and performance indexes taken into account for the assignment of plans based on financial instruments.

Individual bonuses will be allocated on the basis of available bonus pool, individual performance evaluation and internal benchmarking for specific roles.

Individual performance appraisal is based on specific goals, linked to the 5 fundamentals of UniCredit Group competency model: “*Client obsession*”; “*Execution and Discipline*”; “*Cooperation and Synergies*”; “*Risk Management*”; “*People and Business Development*”.

Incentive pay-outs shall be made over a multi-year period (2017-2022) subject to continuous employment at each date of payment and as follows:

- in 2017 the first instalment of the overall incentive (“1st instalment”) will be paid in cash, in absence of any individual / values compliance breach, considering also the gravity of any internal / external findings (e.g. Audit, Bank of Italy, Consob);
- over the period 2018-2022 the remaining amount of the overall incentive will be paid in several instalments in cash and/or Fineco free ordinary shares; each subsequent tranche will be subject to the application of the *Zero Factor* for the year of allocation and in absence of any individual / values compliance breach, considering also the gravity of any internal / external findings (e.g. Audit, Bank of Italy, Consob);
- distribution of share payments takes into account the applicable regulatory requirements regarding the application of share retention periods.

2.2.3 The factors assumed as basis for the determination of the compensation based upon financial instruments, or the criteria for the determination of the aforesaid compensation.

In 2016 Incentive System the link between profitability, risk and reward is assured by linking directly bonus pool with Company results (at Group and local level), cost of capital and risk profiles relevant for the Bank as stated in the *Risk Appetite Framework*.

At this stage, the 2016 Incentive System does not contain an exact indication of the value of free shares to be actually allocated to the beneficiaries, rather it merely fixes the maximum number of the free shares to be issued with reference to the Plan. In any case, are already established the criteria that the Board of Directors should follow, in the resolutions that after the Shareholders' Meeting approval will execute the Plan, to define the actual number of beneficiaries and the number of free shares to be granted.

The 2016 Incentive System provides that in 2017 will be formulated the promise to pay the incentive in cash and shares. The percentages of the payments in cash and shares are linked to the beneficiaries' categories as described in the following points of this document.

The final evaluation of sustainable performance parameters and risk-reward alignment will be reviewed by the Remuneration and Appointments Committee and defined under the responsibility and governance of the Board of Directors.

2.2.4 The reasons justifying the decision to assign compensation plans based on financial instruments not issued by FinecoBank, such as financial instruments issued by its subsidiaries, its parent companies or third parties; in the event the aforesaid financial instruments are not negotiated on regulated markets, the issuer shall provide information as to the criteria adopted for the calculation of the value attributable to such financial instruments

The 2016 Incentive System does not contemplate the allocation of similar financial instruments.

2.2.5 The evaluations, with respect to the relevant tax and accounting implications, taken into account in the definition of the plans

The 2016 Incentive System definition was not influenced by significant tax or accounting consideration.

2.2.6 The indication as to whether the plan enjoys any support from the special fund for encouraging worker participation in the companies, as provided for under Article 4, paragraph 112, of Law December, 24 2003 n. 350

The 2016 Incentive System is not currently supported by the special fund for encouraging worker participation in the companies, as provided for under sect. 4, paragraph 112, of Law December 24, 2003 n. 350.

2.3 PROCEDURE FOR THE ADOPTION OF THE PLAN AND TIMEFRAME FOR THE ASSIGNMENT

2.3.1 Powers delegated to the Board of Directors by the Shareholders' Meeting for the implementation of the plan

The Board of Directors, on January 12th, 2016, approved the proposal related to the 2016 Incentive System to be submitted to the General Shareholder's Meeting called on April 12th, 2016. Furthermore, the Board of Directors, in the same meeting, formulated the proposal to provide to the Board of Directors the delegation of power to carry out a free capital increase for the 2016 Incentive System, to be executed by 2021, with the possibility to submit to a future Shareholders' Meeting approval the proposal aimed at integrating this power to carry out a further capital increase for the 2016 Incentive System, in order to assign the last share instalment foreseen for 2022.

2.3.2 Indication of the individuals in charge of the management of the plan, their powers authority

"Human Resources" function of FinecoBank is in charge for the management of the 2016 Incentive System, as well as of the definition of the FinecoBank Compensation Policy.

2.3.3 Procedures for the amendment of the plans, if any, also in connection with potential variation of the original targets

No specific procedures for the amendment of the 2016 Incentive System are provided for, other than the power of attorney that is provided by the Shareholders' Meeting to the Chairman and the Chief Executive Officer and General Manager, also separately, to possibly make changes to the 2016 System.

2.3.4 Description of the modalities for the determination of the availability and assignment of the financial instruments contemplated by the plan

The best solution identified to execute the 2016 Incentive System is to delegate the Board of Directors, pursuant to sect. 2443 of the Civil Code, the faculty to increase share capital as described in the Director's Report presented to the Extraordinary Shareholders' Meeting called for on April 12th, 2016 (in single call).

In force of this delegation, the Board of Directors could resolve:

- on one or more occasions for a maximum period of five years - to carry out a free capital increase, as allowed by section 2349 of the Italian Civil Code, for a maximum nominal amount of 268.000 Fineco ordinary shares, to be granted to employees of FinecoBank. Such an increase in capital shall be carried out using the special reserve known as "*Provisions Linked to the Medium-Term Incentive System for the staff of FinecoBank*" set up for this purpose, which, if case, may be restored or increased via allocation of profits or a portion of available statutory reserves, formed from the distribution of company profits that shall be identified by the Board of Directors at the moment of share issuance;
- Related to section 2443 of Civil Code that provides that the Directors can exercise the right to carry out a free capital increase for a maximum period of five years starting from the date when the Shareholders' Meeting resolution providing the delegation of power was registered and therefore, until 2021, in order to assign the last share instalment provided for 2022 it will be necessary to submit to a future Shareholders' Meeting approval a proposal aimed at integrating the delegation of power already provided to the Board of Directors so that the implementation of 2016 System can be completed.

The number of shares to be allocated in the respective instalments (as described at paragraph 2.4.1.) shall be defined in 2017, on the basis of the arithmetic mean of the

In the determination of the proposal submitted to the Shareholders' Meeting, the Board of Directors identified the essential characteristics of the 2016 Incentive System, unanimously approved, following the guidelines and criteria elaborated by the Remuneration and Appointments Committee of FinecoBank.

2.4. THE CHARACTERISTICS OF THE FINANCIAL INSTRUMENTS ASSIGNED

2.4.1 Description of the compensation plan

Individual bonuses will be allocated on the basis of available bonus pool, individual performance evaluation and internal benchmarking for specific roles.

Individual performance appraisal is based on specific goals, linked to the 5 fundamentals of UniCredit Group competency model: "*Client obsession*"; "*Execution and Discipline*"; "*Cooperation and Synergies*"; "*Risk Management*"; "*People and Business Development*".

The final evaluation of sustainable performance parameters and risk-reward alignment will be reviewed by the Remuneration and Appointments Committee and defined under the responsibility and governance of the Board of Directors.

The 2016 Incentive System provides that in 2017 the Board of Directors – once verified the achievement of the goals defined for 2016 – will define the percentage of payments in cash and shares established for each category of beneficiaries, as illustrated in the table below:

	2017	2018	2019	2020	2021	2022
CEO/GM and 1 st reporting line	20% cash	10% cash	20% shares	10% shares	10% shares	20% cash + 10% shares
Other Identified Staff	30% cash	10% cash	30% shares	10% cash + 10% shares	10% shares	-

The number of shares to be allocated in the respective instalments shall be defined in 2017, on the basis of the arithmetic mean of the official market closing prices of Fineco ordinary shares during the month preceding the Board resolution that evaluates 2016 performance achievements. The maximum number of Fineco free ordinary shares to service the 2016 System is estimated at 335.000 representing about 0,06% of FinecoBank share capital, of which maximum n° of 33.500 Fineco ordinary shares for the possible hiring of *Identified Staff* from external market.

Pay-outs in shares comply with the applicable regulatory provisions in terms of holding period.

2.4.2 Indication of the time period for the implementation of the plan also indicating different cycles, if any, of its implementation

Incentive pay-outs shall be made over a multi-year period (2017-2022) in a balanced structure of upfront (following the moment of performance evaluation) and deferred payments, in cash and in shares, subject to what mentioned above and continuous employment at each date of payment. The free shares related to the 2016 Incentive System will be allocated by FinecoBank in multiple instalments (as shown in the table above) subject to the Board assessment in 2017 of the goal achievement set for 2016.

2.4.3 The termination date of the plan

The 2016 Incentive System will lapse by July 2022.

For the assignment of the last instalment of shares planned for 2022 it will be submitted to one of the future Shareholders' Meetings the proposed integration of the power of attorney, already provided to the Board of Directors, for capital increase to service the above mentioned 2016 System.

2.4.5 The procedures and clauses for the implementation of the plan, specifying whether the assignment of the financial instruments is subject to the satisfaction of certain specific conditions and, in particular, to the achievement of specific results, including performance targets; a description of the aforesaid conditions and results

Bonus pool is defined as a percentage of the specific funding KPI (*Net Operating Profit*, net of *Provisions for Risk and Charges*, corresponding to *Profit Before Tax*) at local level, taking into consideration the "Entry Conditions" criteria assessment (based on forecasted results – risk-adjusted – both at Group and local level) e and local risk and performance assessment.

The Entry Conditions are the mechanism that determines the possible application of *malus* clause (*Zero Factor*) on the basis of performance indicators in terms of profitability, capital and liquidity defined at both Group and local level. In particular the bonus pool of 2016 will be zeroed, while previous systems deferrals could be reduced from 50% to 100% of their value, based on final effective results and dashboards assessments done by CRO and CFO.

In order to align to regulatory requirements, in case both at Group and local level set KPIs are not met, a *Zero Factor* will apply to the *Identified Staff* population whereas for the rest of the population, a significant reduction will be applied. In case *Zero Factor* is not activated, bonus pool adjustments will be applied within respective ranges based on the assessment of local and Group performance and risk factors.

In case the Entry Conditions are not met at local level, but at Group level they are, a floor might be defined for retention purposes and in order to maintain the minimum pay levels needed to play in the market.

2.4.6 Indication of the restrictions on the availability of the financial instruments allocated under the plan or of the financial instruments relating to the exercise of the options, with particular reference to the time limits within which the subsequent transfer of the stocks to the issuer or third parties is permitted or prohibited

The 2016 Incentive System provides that the free Fineco ordinary shares that will be allocated will be freely transferable, considering the applicable regulatory requirements regarding the application of share retention periods, as described in section 2.2.1.

2.4.7 Description of any condition subsequent to the plan in connection with the execution, by the beneficiaries, of hedging transactions aimed at preventing the effects of potential limits to the transfer of the financial instruments assigned there under, also in the form of options, as well as to the transfer of the financial instruments relating to the exercise of the aforesaid options

In accordance with national regulatory guidelines and the 2016 Compensation Policy, beneficiaries are required to undertake not to use personal hedging strategies or remuneration and liability-related insurance to undermine the risk alignment effects embedded in their remuneration arrangements. Involvement in any form of hedging transaction shall be considered in breach of the Bank compliance policies and therefore the relevant rights under the plan shall automatically expire.

2.4.8 Description of the consequences deriving from the termination of the employment or working relationship

The 2016 Incentive System provides that the Board of Directors will have the faculty to identify, in the resolution that will execute the 2016 System, the termination of the beneficiary with the Bank, as cause for the expiring of the right to receive the free shares, coherently with the Plan rules.

2.4.12 The evaluation of the economic burden for FinecoBank at date of the assignment of the plan, as determined on the basis of the terms and conditions already defined, with respect to the aggregate overall amount as well as with respect to each financial instrument contemplated by the plan

The estimation of the overall cost expected by FinecoBank in relation to the 2016 Incentive System at the grant date of the free shares, was made on the basis of the IAS principles, considering the accounting assumptions on the probability to achieve the performance targets related to the allocation of the free shares.

On the basis of these estimations, the overall expected cost for FinecoBank (IAS cost) on the basis of the effective performance conditions met, could be equal to € 4.000.000 to be split in 6 years. Nevertheless, at this stage it is not possible to define the exact cost in each year of life of the 2016 Incentive System, since the definition of the actual incentive to be allocated is subject to the Board of Directors resolution.

2.4.13 The indication of any dilution on the corporate capital of the issuer resulting from the compensation plan, if any

The 2016 Incentive System does not provide for options.

2.4.20 In case the strike price is different from the fair market value as determined pursuant to point 2.4.19.b, the indication of the reasons for such difference

The 2016 Incentive System does not provide for options.

2.4.21 The criteria justifying differences in the exercise prices between the relevant beneficiaries or class of beneficiaries

The 2016 Incentive System does not provide for options.

3. 2016 INCENTIVE SYSTEM FOR FINANCIAL ADVISORS BELONGING TO IDENTIFIED STAFF (HEREAFTER ALSO "2016 INCENTIVE SYSTEM PFA")

In compliance with the last Bank of Italy provisions set forth in Circular 285, December 17th, 2013 (Section "*Regulations on remuneration and incentive policies and practices of Banks and Banking groups*") – VII Update of November 18th, 2014, First Part, Title IV, Chapter 2, implementing the *Capital Requirements Directive 2013/36/EU (CRD IV)* and in line with the

guidelines issued by *European Banking Authority* (EBA), FinecoBank defined compensation systems based on financial instruments in order to align shareholders and management interests, reward long-term value creation, share price appreciation and motivate and retain key resources of FinecoBank. For this purpose it was proposed the adoption of the Plan **“2016 Incentive System for Financial Advisors belonging to *Identified Staff*”**, which provides for, to selected Financial Advisors belonging to *Identified Staff*, the allocation of an incentive – in cash and Fineco ordinary shares – to be granted in a multi-year period, subject to the achievement of specific objectives.

c) other categories of employees or collaborators for which different characteristics are envisaged for the plan (e.g. executives, middle management, employees etc.)

No classes of employees meet the description; therefore this provision is not applicable.

3.2 THE REASONS FOR THE ADOPTION OF THE PLAN

3.2.1 The targets which the parties intend to reach through the adoption of the plan

The 2016 Incentive System PFA aims to retain and motivate beneficiary Advisors in compliance with the most recent national and international regulatory requirements with the aim to define – in the interest of all stakeholders – incentive systems in line with long-term Company strategies and goals, linked to Bank results, adjusted in order to consider all risks, in coherence with capital and liquidity levels needed to cover the activities in place and, in any case, able to avoid misleading incentives that could drive to regulatory breaches or to assume excessive risks for the Bank and the system in its whole.

The 2016 Incentive System PFA is compliant with FinecoBank Compensation Policy and with the most recent national and international regulatory requirements providing for:

- allocation of a variable incentive defined based on available bonus pool, individual performance evaluation and bonus cap as set by the Ordinary Shareholder's meeting;
- definition of a balanced structure of "upfront" (done at the moment of performance evaluation) and "deferred payments", in cash and in Fineco ordinary shares;
- distribution of Fineco share payments, coherently with the applicable regulatory requirements regarding the application of share retention periods. In fact the payment structure defined requires a retention period on Fineco shares (of 2 years for upfront shares and of 1 year for deferred shares);

- risk-adjusted metrics in order to guarantee long-term sustainability with respect to Company's financial position and to ensure compliance with regulatory expectations;
- *malus clause (Zero Factor)* applies in case specific thresholds (capital and liquidity) are not met at both Group and local level (at local level also profitability will be considered). In particular, the bonus pool of 2016 will be zeroed.

3.2.2 Principal factors of variation and performance indexes taken into account for the assignment of plans based on financial instruments

Individual bonuses will be allocated based on available bonus pool, individual performance evaluation and internal benchmarking for specific roles.

Total incentive pay-out as defined will be made over a multi-year period (2017-2021), as indicated below and provided that the agency relationship of the beneficiaries is in place at the time of each payment:

- in 2017 the first instalment of the overall incentive ("1st instalment") will be paid in cash, in absence of any individual / values compliance breach, considering also the gravity of any internal / external findings (e.g. Audit, Consob and/or analogous local authorities);
- over the period 2018-2021 the remaining amount of the overall incentive will be paid in several instalments in cash and/or Fineco ordinary shares; each subsequent tranche will be subject to the application of the *Zero Factor* for the year of allocation and in absence of any individual / values compliance breach, considering also the gravity of any internal / external findings (e.g. Audit, Consob and/or analogous local authorities);
- distribution of share payments takes into account the applicable regulatory requirements regarding the application of share retention periods.

3.2.3 The factors assumed as basis for the determination of the compensation based upon financial instruments, or the criteria for the determination of the aforesaid compensation

In 2016 Incentive System PFA the link between profitability, risk and reward is assured by linking directly bonus pool with Company results (at Group and local level), cost of capital and risk profiles relevant for the Bank as stated in the *Risk Appetite Framework*.

At this stage, the 2016 Incentive System PFA does not contain an exact indication of the value of free shares to be actually allocated to the beneficiaries, rather it merely fixes the maximum number of the free shares to be issued with reference to the Plan. In any case, are already established the criteria that the Board of Directors should follow, in the resolutions that after the Shareholders' Meeting approval will execute the Plan, to define the actual number of beneficiaries and the number of free shares to be granted.

The 2016 Incentive System PFA provides that in 2017 will be formulated the promise to pay the incentive in cash and shares.

The final evaluation of sustainable performance parameters and risk-reward alignment will be reviewed by the Remuneration and Appointments Committee and defined under the responsibility and governance of the Board of Directors.

3.2.4 The reasons justifying the decision to assign compensation plans based on financial instruments not issued by FinecoBank, such as financial instruments issued

by its subsidiaries, its parent companies or third parties; in the event the aforesaid financial instruments are not negotiated on regulated markets, the issuer shall provide information as to the criteria adopted for the calculation of the value attributable to such financial instruments

The 2016 Incentive System PFA does not contemplate the allocation of similar financial instruments.

3.2.5 The evaluations, with respect to the relevant tax and accounting implications, taken into account in the definition of the plans

The 2016 Incentive System PFA definition was not influenced by significant tax or accounting consideration.

3.2.6 The indication as to whether the plan enjoys any support from the special fund for encouraging worker participation in the companies, as provided for under Article 4, paragraph 112, of Law December, 24 2003 n. 350

The 2016 Incentive System PFA is not currently supported by the special fund for encouraging worker participation in the companies, as provided for under sect. 4, paragraph 112, of Law December 24, 2003 n. 350.

The maximum number of Fineco free ordinary shares is estimated at 250.000, representing about 0,04% of FinecoBank share capital that will be purchased from the market, after having received the necessary authorization of the Regulator.

Over the period 2019-2021 each instalments of shares assigned will be subject to the application of the *Zero Factor* for the year of allocation and in absence of any individual / values compliance breach, considering also the gravity of any internal / external findings (e.g. Audit, Consob and/or analogous local authorities).

Bonus pool is defined as a percentage of the specific funding KPI (*Net Operating Profit*, net of *Provisions for Risk and Charges*, corresponding to *Profit Before Tax*) at local level, taking into consideration the "Entry Conditions" criteria assessment (based on forecasted results – risk-adjusted – both at Group and local level) e and local risk and performance assessment.

The Entry Conditions are the mechanism that determines the possible application of *malus* clause (*Zero Factor*) on the basis of performance indicators in terms of capital and liquidity defined at both Group and local level (at local level also profitability will be considered). In particular the bonus pool of 2016 will be zeroed.

In order to align to regulatory requirements, in case both at Group and local level set KPIs are not met, a *Zero Factor* will apply to the *Identified Staff* population whereas for the rest of the population, a significant reduction will be applied. In case *Zero Factor* is not

activated, bonus pool adjustments will be applied within respective ranges based on the assessment of local and Group performance and risk factors.

In case the Entry Conditions are not met at local level, but at Group level they are, a floor might be defined for retention purposes and in order to maintain the minimum pay levels needed to play in the market.

On the basis of these estimations, the overall expected cost for FinecoBank (IAS cost) on the basis of the effective performance conditions met, could be equal to € 3.000.000 to be split in 4 years.
